Following the attack on Pearl Harbor, the Japanese offensive in the Far East seemed unstoppable. Allied forces engaged in a futile attempt to halt their rapid advance, culminating in the massed fleet of American, British, Dutch, and Australian forces (ABDA) clashing with the Japanese at the battle of the Java Sea – the first major sea battle of World War II in the Pacific. But, in a campaign crippled by poor leadership and disastrous decisions, the Allied response was catastrophic, losing their largest warships and their tenuous toe-hold in the south Pacific within the first 72 hours of the battle. This defeat left ground troops cut off from reinforcement and supply, with obsolete equipment, no defense against endless Japanese air attacks, and with no chance of retreat. However, although command decisions were to condemn the Allies to defeat, the Allied goal was never an outright victory, simply a delaying action. Facing a relentless and thoroughly vicious enemy, the combined forces responded not by running or surrendering, but by defiantly holding on in a struggle that was as much a test of character, bravery, and determination as it was a test of arms, ultimately costing the Allies ten vessels and the lives of 2,100 brave sailors. In *Rising Sun, Falling Skies*, Jeffrey Cox examines the events and evidence surrounding the Java Sea Campaign, reconstructing battles that in hindsight were all but hopeless and revealing where fatal mistakes and missed opportunities condemned the Allied forces in an insightful and compelling study of the largely overlooked clash in the Java Sea.

The Mysterious Stranger, published posthumously in 1916, belongs to Twain's "dark" period. At the time of composition, Twain had suffered a series of painful physical, economic, and emotional losses. In his chilling tale, a stranger named Satan visits an old Austrian town to convince the religious faithful that there is no God, and "nothing exists; all is a dream."

One of the world's leading historians re-examines World War II and its outcome A clear-eyed reappraisal of World War II that offers new insight by reevaluating well-established facts and pointing out lesser-known ones, No Simple Victory asks readers to reconsider what they know about the war, and how that knowledge might be biased or incorrect. Norman Davies poses simple questions that have unexpected answers: Can you name the five biggest battles of the war? What were the main political ideologies that were contending for supremacy? The answers to these questions will surprise even those who feel that they are experts on the subject. Davies has established himself as a preeminent scholar of World War II. No Simple Victory is an invaluable contribution to twentieth-century history and an illuminating portrait of a conflict that continues to provoke debate.

Europe at War 1939-1945 Pan Macmillan

This groundbreaking history of how American police forces have been militarized is now revised and updated. Newly added material brings the story through 2020, including analysis of the Ferguson protests, the Obama and Trump administrations, and the George Floyd protests. The last days of colonialism taught America’s revolutionaries that soldiers in the streets bring conflict and tyranny. As a result, our country has generally worked to keep the military out of law enforcement. But over the last two centuries, America’s cops have increasingly come to resemble ground troops. The consequences have been dire: the home is no longer a place of sanctuary, the Fourth Amendment has been gutted, and police today have been conditioned to see the citizens they serve as enemies. In *Rise of the Warrior Cop*, Balko shows how politicians’ ill-considered policies and relentless declarations of war against vague enemies like crime, drugs, and terror have blurred the distinction between cop and soldier. His fascinating, frightening narrative that spans from America’s earliest days through today shows how a creeping battlefield mentality has isolated and alienated American police officers and put them on a collision course with the values of a free society.

Larry Bond's Red Dragon Rising: Shadows of War Penguin

Following the conquest of Poland by Nazi Germany and the Soviet Union in 1939, hundreds of thousands of Polish families were torn from their homes and sent eastwards to the arctic wastes of Siberia. Prisoners of war, refugees, those regarded as 'social criminals' by Stalin's regime, and those rounded up by sheer chance were all sent 'to see the Great White Bear'. However, with Hitler's invasion of the Soviet Union in Operation Barbarossa just two years later, Russia and the Allied powers found themselves on the same side once more. Turning to those that it had previously deemed 'undesirable', Russia sought to raise a Polish army from the men, women and children that it had imprisoned within its labour camps. In this remarkable work, renowned historian Professor Norman Davies draws from years of meticulous research to recount the compelling story of this unit,

the Polish II Corps or 'Anders Army', and their exceptional journey from the Gulag of Siberia through Iran, the Middle East and North Africa to the battlefields of Italy to fight shoulder-to-shoulder with Allied forces. Complete with previously unpublished photographs and first-hand accounts from the men and women who lived through it, this is a unique visual and written record of one of the most fascinating episodes of World War II.

An account of the early years of World War II based on extensive new research: “A genuinely fresh approach . . . exceptional” (The Wall Street Journal). James Holland, one of the leading young historians of World War II, has spent over a decade conducting new research, interviewing survivors, and exploring archives that have never before been so accessible to unearth forgotten memoirs, letters, and official records. In *The Rise of Germany 1938–1941*, Holland draws on this research to reconsider the strategy, tactics, and economic, political, and social aspects of the war. The Rise of Germany is a masterful book that redefines our understanding of the opening years of World War II. Beginning with the lead-up to the outbreak of war in 1939 and ending in the middle of 1941 on the eve of Operation Barbarossa, the Nazi invasion of Russia, this book is a landmark history of the war on land, in the air, and at sea. “Magnificent.” —Andrew Roberts, New York Times—bestselling author of *The Storm of War*

The Bayeux Tapestry is the world's most famous textile—an exquisite 230-foot-long embroidered panorama depicting the events surrounding the Norman Conquest of 1066. It is also one of history's most mysterious and compelling works of art. This haunting stitched account of the battle that redrew the map of medieval Europe has inspired dreams of theft, waves of nationalism, visions of limitless power, and esthetic rapture. In his fascinating new book, Yale professor R. Howard Bloch reveals the history, the hidden meaning, the deep beauty, and the enduring allure of this astonishing piece of cloth. Bloch opens with a gripping account of the event that inspired the Tapestry: the swift, bloody Battle of Hastings, in which the Norman bastard William defeated the Anglo-Saxon king, Harold, and laid claim to England under his new title, William the Conqueror. But to truly understand the connection between battle and embroidery, one must retrace the web of international intrigue and scandal that climaxed at Hastings. Bloch demonstrates how, with astonishing intimacy and immediacy, the artisans who fashioned this work of textile art brought to life a moment that changed the course of British culture and history. Every age has cherished the Tapestry for different reasons and read new meaning into its enigmatic words and images. French nationalists in the mid-nineteenth century, fired by Tapestry's evocation of military glory, unearthed the lost French epic “The Song of Roland,” which Norman troops sang as they marched to victory in 1066. As the Nazis tightened their grip on Europe, Hitler sent a team to France to study the Tapestry, decode its Nordic elements, and, at the end of the war, with Paris under siege, bring the precious cloth to Berlin. The richest horde of buried Anglo-Saxon treasure, the matchless beauty of Byzantine silk, Aesop's strange fable “The Swallow and the Linseed,” the colony that Anglo-Saxon nobles founded in the Middle East following their defeat at Hastings—all are brilliantly woven into Bloch's riveting narrative. Seamlessly integrating Norman, Anglo-Saxon, Viking, and Byzantine elements, the Bayeux Tapestry ranks with Chartres and the Tower of London as a crowning achievement of medieval Europe. And yet, more than a work of art, the Tapestry served as the suture that bound up the wounds of 1066. Enhanced by a stunning full-color insert that includes reproductions of the complete Tapestry, *A Needle in the Right Hand of God* will stand with *The Professor and the Madman* and *How the Irish Saved Civilization* as a triumph of popular history.

Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.

Retreat from a Rising Sea Bloomsbury Publishing

The conventional narrative of the Second World War is well known: after six years of brutal fighting on land, sea and in the air, the Allied Powers prevailed and the Nazi regime was defeated. But as in so many things, the truth is somewhat different. Bringing a fresh eye to bear on a story we think we know, Norman Davies.Davies forces us to look again at those six years and to discard the usual narrative of Allied good versus Nazi evil, reminding us that the war in Europe was dominated by two evil monsters - Hitler and Stalin - whose fight for supremacy consumed the best people in Germany and in the USSR . The outcome of the war was at best ambiguous, the victory of the West was only partial, its moral reputation severely tarnished and, for the greater part of the continent of Europe, 'liberation' was only the beginning of more than fifty years of totalitarian oppression. 'Davies writes with real knowledge and passion.' A heartbreaking and powerful story about a black boy killed by a police officer, drawing connections through history, from award-winning author Jewell Parker Rhodes. Only the living can make the world better. Live and make it better. Twelve-year-old Jerome is shot by a police officer who mistakes his toy gun for a real threat. As a ghost, he observes the devastation that's been unleashed on his family and community in the wake of what they see as an unjust and brutal killing. Soon Jerome meets another ghost: Emmett Till, a boy from a very different time but similar circumstances. Emmett helps Jerome process what has happened, on a journey towards recognizing how historical racism may have led to the events that ended his life. Jerome also meets Sarah, the daughter of the police officer, who grapples with her father's actions. Once again Jewell Parker Rhodes deftly weaves historical and socio-political layers into a gripping and poignant story about how children and families face the complexities of today's world, and how one boy grows to understand American blackness in the aftermath of his own death.
