Summary of William Least Heat-Moon's River-Horse G K Hall & Company This blistering novel—from the bestselling, Pulitzer Prize – winning author of The Road—returns to the Texas-Mexico border, setting of the famed Border Trilogy. The time is our own, when rustlers have given way to drug-runners and small towns have become free-fire zones. One day, a good old boy named Llewellyn Moss finds a pickup truck surrounded by a bodyguard of dead men. A load of heroin and two million dollars in cash

are still in the back. When Moss takes the money, he sets off a chain reaction of catastrophic violence that not even the law – in the person of aging, disillusioned Sheriff Bell – can contain. As Moss tries to evade his pursuers – in particular a mysterious mastermind who flips coins for human lives – McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning' s headlines. No Country for Old Men is a triumph.

Fifty Houses Little, Brown

The young police officer stood on the porch in the heat of the summer evening and stared wide-eved at Karen in disbelief. In a controlled voice he said. "I can see tomorrow''s headlines. 'Female cyclist pedaling across the United States alone spends the evening with a murderer in Minnesota.' Just what are you trying to prove?!!" I rolled my eyes and was tempted to ask him what century he was from since I knew of women doing all sorts of adventurous activities on their own. You Who Are on the Road. tells how Karen began and completed a 10,000-mile bicycle journey around the periphery of the United States. The physical experience of bicycling serves as a metaphor for her spiritual transformation resulting from interactions with the people she met along the way. Though we all pedal our own unique paths, there is much to learn from the experiences of others. Author William Least

Heat-Moon (Blue Highways, 1982; River-Horse, 1999) wrote Karen letters offering words of wisdom and encouragement. It was this fellow explorer's most emphatic suggestion--"Complete the trip" which resonated in her soul, like a mantra, during the thirteen-month journey. Mr. Least Heat-Moon knew from his experience that living a dream was challenging, rewarding and most of all hard work. We are living through a time in history where current events have caused some people to seek new ways to add meaning to their lives. This book gently suggests ways to explore new territories-physically, emotionally and spiritually. People looking for insights in their lives can learn from stories told by kindred spirits along the way. Those looking for adventure will find it in You Who Are on the Road. The true good nature of mostpeople comes out in the story and will bring hope to those who are cynical about our troubled times old indian trails Little, Brown When a meteorite lands in Surrey, the locals don't

Steven Faulkner and his 16-year-old son Justin are paddling and portaging their way along the 1000-mile, 1673, Mississippi discovery route of

French explorers Marguette and Joliet. Tired, hungry, lost, lonely, fogbound, canoe-wrecked, unable to make their way in the darkness, they are having an excellent time--paddling 300 miles along Lake Michigan's shore to Green Bay, Wisconsin, then 300 miles up the stormflooded Fox River, down the Wisconsin River, then turning south for 400 miles down the mighty Mississippi to St. Louis. Waterwalk is a triple journey: a journey into the heart of this continent 300 years ago--as depicted in Marguette's own journal (a translation of which Faulkner found in the basement of a University of Kansas library), a modern exploration of the quiet waterways that weave their way through busy, rush-around America, and a voyage through the heart of a father-son relationship. "Something in us," says Faulkner, "longs to go the way of the river, to lie down on those silken

currents and swing away from the bank and move along mile after mile. There's something there that's wild and strong and asleep in mystery . . . And all the while, rivers spoke to us unheeded perils, statues came alive and shared their stories, and a father and son tried to learn the language of friendship and interdependence."

A New York Times Bestseller and New York Times Book Review Editors' Choice A Best Book of 2015. The Wall Street Journal "Love is the driver for Wendy Williams's new book, The Horse . . . [an] affectionate, thoroughgoing, good-hearted book." —Jaimy Gordon, The New York Times Book Review "Charming and deeply interesting . . . Ms. Williams does a marvelous job." —Pat Shipman, The Wall

Street Journal The book horse-lovers have been waiting for Horses have a story to tell, one of resilience, sociability, and intelligence, and of partnership with human beings. In The Horse, in unfamiliar languages, the winds warned us of the journalist and equestrienne Wendy Williams brings that story brilliantly to life. Williams chronicles the 56-million-year journey of horses as she visits with experts around the world, exploring what our biological affinities and differences can tell us about the bond between horses and humans, and what our longtime companion might think and feel. Indeed, recent scientific breakthroughs regarding the social and cognitive capacities of the horse and its ability to adapt to changing ecosystems indicate that this animal is a major evolutionary triumph. Williams charts the course that leads to our modern Equus-from the protohorse to the Dutch Warmbloods, Thoroughbreds, and cow

ponies of the twenty-first century. She observes magnificent ancient cave art in France and Spain that signals a deep respect and admiration for horses well before they were domesticated; visits the mountains of Wyoming with experts in equine behavior to understand the dynamics of free-roaming mustangs; witnesses the fluid gracefulness of the famous Lipizzans of Vienna; contemplates what life is like for the sure-footed, mustachioed Garrano horses who thrive on the rugged terrain of Galicia; meets a family devoted to rehabilitating abandoned mustangs on their New Hampshire farm; celebrates the Takhi horses of Mongolia; and more. She blends profound scientific insights with remarkable stories to create a unique biography of the horse as a sentient being with a fascinating past and a finely nuanced mind. The Horse is a revealing

account of the animal who has been at our side through the ages, befriending us and traveling with us over the mountains and across the plains. Enriched by Williams's own experience with horses, The Horse is a masterful work of narrative nonfiction that pays tribute to this treasure of the natural world.

"I come from Des Moines. Somebody had to." And, as soon as Bill Bryson was old enough, he left. Des Moines couldn't hold him, but it did lure him back. After ten years in England he returned to the land of his youth, and drove almost 14,000 miles in search of a mythical small town called Amalgam, the kind of smiling village where the movies from his youth were set. Instead he drove through a series of horrific burgs, which he renamed Smellville, Fartville, Coleslaw, Coma, and Doldrum. At best his search led him to Anywhere, USA, a lookalike strip of gas stations, motels and hamburger outlets populated by obese and slowwitted hicks with a partiality for synthetic fibres. He discovered a continent that was doubly lost: lost to itself because he found it blighted by greed, pollution, mobile homes and television; lost to him because he had become a foreigner in his own country.
