Now an original series on HBO Max. Over one million copies sold! Kirsten Raymonde will never forget the night Arthur Leander, the famous Hollywood actor, had a heart attack on stage during a production of King Lear. That was the night when a devastating flu pandemic arrived in the city, and within weeks, civilization as we know it came to an end. Twenty years later, Kirsten moves between the settlements of the altered world with a small troupe of actors and musicians. They call themselves The Traveling Symphony, and they have dedicated themselves to keeping the remnants of art and humanity alive. But when they arrive in St. Deborah by the Water, they encounter a violent prophet who will threaten the tiny band's existence. Books Are Made Out of Books Vintage

An Instant New York Times Bestseller From the Pulitzer Prize-winning author of The Looming Tower—a riveting thriller and “all-too-convincing chronicle of science, espionage, action and speculation” (The Wall Street Journal) At an internment camp in Indonesia, forty-seven people are pronounced dead with acute hemorrhagic fever. When epidemiologist Henry Parsons travels there on behalf of the World Health Organization to investigate, what he finds will have staggering repercussions. Halfway across the globe, the deputy director of U.S. Homeland Security scrambles to mount a response to the rapidly spreading pandemic leapfrogging around the world, which she believes may be the result of an act of biowarfare. And a rogue experimenter in man-made diseases is preparing his own terrifying solution. As already-fraying global relations begin to snap, the virus slashes across the United States, dismantling institutions and decimating the population. With his own wife and children facing diminishing odds of survival, Henry travels from Indonesia to Saudi Arabia to his home base at the CDC in Atlanta, searching for a cure and for the origins of this seemingly unknowable disease. The End of October is a one-of-a-kind thriller steeped in real-life political and scientific implications, filled with the insight that has been the hallmark of Wright's acclaimed nonfiction and the full-tilt narrative suspense that only the best fiction can offer.

The Things They Carried Vintage

This book was written to venture beyond interpretations of Cormac McCarthy's characters as simple, antinomian, and non-psychological; and of his landscapes as unrelated to the violent arcs of often orphaned and always emotionally isolated and socially detached characters. As McCarthy usually eschews direct indications of psychology, his landscapes allow us to infer much about their motivations. The relationship of ambivalent nostalgia for domesticity to McCarthy's descriptions of space remains relatively unexamined at book length, and through less theoretical application than close reading. By including McCarthy's latest book, this study offer the only complete study of all nine novels. Within McCarthy studies, this book extends and complicates a growing interest in space and domesticity in his work. The author combines a high regard for McCarthy's stylistic prowess with a provocative reading of how his own psychological habits around gender issues and family relations power books that only appear to be stories of masculine heroics, expressions of misogynistic fear, or antinomian rejections of civilized life.

The Road to Winter Routledge

NATIONAL BESTSELLER • The second volume of the award-winning Border Trilogy—from

the Pulitzer Prize–winning author of *The Road*—fulfills the promise of *All the Pretty Horses* and at the same time give us a work that is darker and more visionary, a novel with the unstoppable momentum of a classic western and the elegaic power of a lost American myth. In the late 1930s, sixteen-year-old Billy Parham captures a she-wolf that has been marauding his family's ranch. But instead of killing it, he decides to take it back to the mountains of Mexico. With that crossing, he begins an arduous and often dreamlike journey into a country where men meet ghosts and violence strikes as suddenly as heat-lightning--a world where there is no order "save that which death has put there." An essential novel by any measure, *The Crossing* is luminous and appalling, a book that touches, stops, and starts the heart and mind at once.

#### Blood Meridian Del Rey

Set in rural New York state at the turn of the twentieth century, superb new talent James Scott makes his literary debut with *The Kept*—a propulsive novel reminiscent of the works of Michael Ondaatje, Cormac McCarthy, and Bonnie Jo Campbell, in which a mother and her young son embark on a quest to avenge a terrible and violent tragedy that has shattered their secluded family. In the winter of 1897, a trio of killers descends upon an isolated farm in upstate New York. Midwife Elspeth Howell returns home to the carnage: her husband, and four of her children, murdered. Before she can discover her remaining son Caleb, alive and hiding in the kitchen pantry, another shot rings out over the snow-covered valley. Twelve-year-old Caleb must tend to his mother until she recovers enough for them to take to the frozen wilderness in search of the men responsible. A scorching portrait of a merciless world—of guilt and lost innocence, atonement and retribution, resilience and sacrifice, pregnant obsession and primal adolescence—*The Kept* introduces an old-beyond-his-years protagonist as indelible and heartbreaking as Mattie Ross of *True Grit* or Jimmy Blevins of *All the Pretty Horses*, as well as a shape-shifting mother as enigmatic and mysterious as a character drawn by Russell Banks or Marilynne Robinson.

This blistering novel—from the bestselling, Pulitzer Prize–winning author of *The Road*—returns to the Texas-Mexico border, setting of the famed *Border Trilogy*. The time is our own, when rustlers have given way to drug-runners and small towns have become free-fire zones. One day, a good old boy named Llewellyn Moss finds a pickup truck surrounded by a bodyguard of dead men. A load of heroin and two million dollars in cash are still in the back. When Moss takes the money, he sets off a chain reaction of catastrophic violence that not even the law—in the person of aging, disillusioned Sheriff Bell—can contain. As Moss tries to evade his pursuers—in particular a mysterious mastermind who flips coins for human lives—McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning’s headlines. *No Country for Old Men* is a triumph.

Oprah’s Book Club, and Oscar-winning film adaptations of his novels, Cormac McCarthy is one of America’s best-selling novelists of the South and Southwest. Cormac McCarthy offers a shrewd chapter-by-chapter reading, exploring concepts such as the Southern Gothic novel, the Southwest border, faith and suicide, and father-son relationships. Respected scholar Kenneth Lincoln shows how McCarthy’s canticles of praise, grief, and warning mix classic, biblical, and ballad genres and cross the lyrical with the narrative. Lincoln makes a compelling case that McCarthy is our greatest millennial novelist in a time of heroic challenge and high global stakes.

BOOKS OF LITERARY JOURNALISM IN THE 21st CENTURY • The heartrending story of a

midcentury American family with twelve children, six of them diagnosed with schizophrenia, that

became science’s great hope in the quest to understand the disease. "Reads like a medical detective

journey and sheds light on a topic so many of us face: mental illness." —Oprah Winfrey Don and Mimi

Galvin seemed to be living the American dream. After World War II, Don’s work with the Air Force

brought them to Colorado, where their twelve children perfectly spanned the baby boom: the oldest born

in 1945, the youngest in 1965. In those years, there was an established script for a family like the

Galvins--aspiration, hard work, upward mobility, domestic harmony--and they worked hard to play their

parts. But behind the scenes was a different story: psychological breakdown, sudden shocking violence,

hidden abuse. By the mid-1970s, six of the ten Galvin boys, one after another, were diagnosed as

schizophrenic. How could all this happen to one family? What took place inside the house on Hidden

Valley Road was so extraordinary that the Galvins became one of the first families to be studied by the

National Institute of Mental Health. Their story offers a shadow history of the science of schizophrenia,

from the era of institutionalization, lobotomy, and the schizophrenogenic mother to the search for

genetic markers for the disease, always amid profound disagreements about the nature of the illness

itself. And unbeknownst to the Galvins, samples of their DNA informed decades of genetic research that

continues today, offering paths to treatment, prediction, and even eradication of the disease for future

generations. With clarity and compassion, bestselling and award-winning author Robert Kolker uncovers

one family’s unforgettable legacy of suffering, love, and hope.
