This is the story of the most successful cocaine dealers in the world: Pablo Escobar Gaviria, Jorge Luis Ochoa Vasquez, Carlos Lehder Rivas and Jose Gonzalo Rodriguez Gacha. In the 1980s they controlled more than fifty percent of the cocaine flowing into the United States. The cocaine trade is capitalism on overdrive -- supply meeting demand on exponential levels. Here you'll find the story of how the modern cocaine business started and how it turned a rag tag group of hippies and sociopaths into regal kings as they stumbled from small-time suitcase smuggling to levels of unimaginable sophistication and daring. The \$2 billion dollar system eventually became so complex that it required the manipulation of world leaders, corruption of revolutionary movements and the worst kind of violence to protect.

"Zero zero zero" flour is the finest, whitest available. "Zero zero zero" is also the nickname among narcotraffickers for the purest, highest quality cocaine on the market. And it is the title of Roberto Saviano's unforgettable exploration of how the cocaine trade knits the world into its dark economy and imposes its own vicious rules and moral codes on its armies and, through them, on us all. Saviano's Gomorrah, his explosive account of the Neapolitan mob, the Camorra, was a worldwide publishing sensation. It struck such a nerve with the Camorra that Saviano has lived with twenty-four hour police protection in the shadow of death threats for more than seven years. During this time he has become intimate with law enforcement agencies around the world. Saviano has broadened his perspective to take in the entire global "corporate" entity that is the drug trade in cooperation with law enforcement officials, who have fed him information and sources and used him to guide their own thinking and tactics. Saviano has used this extraordinary access to feed his own groundbreaking reportage. The result is a truly amazing and harrowing synthesis of intimate literary narrative and geopolitical analysis of one of the most powerful dark forces in the global economy. In Zero Zero Zero, Saviano tracks the shift in the cocaine trade's axis of power, from Colombia to Mexico, and relates how the Latin American cartels and gangs have forged alliances, first with the Italian crime syndicates, then with the Russians, Africans, and others. On the one hand, he charts an astonishing increase in sophistication and diversification as these criminal entities diversify into many other products and markets. On the other, he reveals the threat of violence to protect and extend power and how the nature of the violence has grown steadily more appalling. Saviano is a journalist of rare courage and a thinker of impressive intellectual depth and moral imagination, able to see the connections between far-flung phenomena and bind them into a single epic story. Most drug-war narratives feel safely removed from our own lives; Saviano offers no such comfort. As heart racing as it is heady, Zero Zero Zero is a fusion of a variety of disparate genres into a brilliant new form that can only be called Savianoesque.

Perhaps no twentieth century writer was so observant and elegant a chronicler of his times as Truman Capote. Whether he was profiling the rich and famous or creating indelible word-pictures of events and places near and far, Capote's eye for detail and dazzling style made his reportage and commentary undeniable triumphs of the form. Portraits and Observations is the first volume devoted solely to all the essays ever

published by this most beloved of writers. From polyglot community of immigrants who have come to his travel sketches of Brooklyn, New Orleans, and Hollywood, written when he was twenty-two, to meditations about fame, fortune, and the writer's art at the peak of his career, to the brief works penned during the isolated denouement of his life, these essays provide an essential window into mid-twentieth-century America as offered by one of its canniest observers. Included are such celebrated masterpieces of narrative nonfiction as "The Muses Are Heard" and the short nonfiction novel "Handcarved Coffins," as well as many long-out-of-print essays, including portraits of Isak Dinesen, Mae West, Marcel Duchamp, Humphrey Bogart, and Marilyn Monroe. Among the highlights are "Ghosts in Sunlight: The Filming of In Cold Blood," "Preface to Music for Chameleons, in which Capote candidly recounts the highs and lows of his long career, and a playful self-portrait in the form of an imaginary self-interview. The book concludes with the author's last written words, composed the day before his death in 1984, the recently discovered "Remembering Willa Cather," Capote's touching recollection of his encounter with the author when he was a young man at the dawn of his career. Portraits and Observations puts on display the full spectrum of Truman Capote's brilliance. Certainly, Capote was, as Somerset Maugham famously called him, "a stylist of the first quality." But as the pieces gathered here remind us, he was also an artist of remarkable substance.

The Psychiatrist, the Mad Bomber, and the Invention of Criminal Profiling ZeroZeroZero Long before the specter of terrorism haunted the public imagination, a serial bomber stalked the streets of 1950s New York. The race to catch him would give birth to a new science called criminal profiling. Grand Central, Penn Station, Radio City Music Hall--for almost two decades, no place was safe from the man who signed his anonymous letters "FP" and left his lethal devices in phone booths, storage lockers, even tucked into the plush seats of movie theaters. His victims were left cruelly maimed. Tabloids called him "the greatest individual menace New York City ever faced." In desperation, Police Captain Howard Finney sought the help of a little known psychiatrist, Dr. James Brussel, whose expertise was the criminal mind. Examining crime scene evidence and the strange wording in the bomber's letters, he compiled a portrait of the suspect down to the cut of his jacket. But how to put a name to the description? Seymour Berkson--a handsome New York socialite, protégé of William Randolph Hearst, and publisher of the tabloid The Journal-American--joined in pursuit of the Mad Bomber. The three men hatched a brilliant scheme to catch him at his own game. Together, they would capture a monster and change the face of American law enforcement.

In Roberto Saviano's *The Opposite of Death*, a town in southern Italy is haunted by the war in Afghanistan, where one by one its sons are dying. In *Ferengi*, Carlo Lucarelli explores the Italian settlement of Eritrea a century ago, when the actions of a maid became pivotal to the fate of an exploitative colonial family. Valeria Parrella's *The Prize*, set in the Italian countryside during the Second World War, reminds us that revenge is a dish best served cold, while Piero Colaprico's *Stairway C* is a breathless Milanese crime novel in miniature. What can magic tell us about ourselves and our daily lives? If you subtly change the subject during an uncomfortable conversation, did you know you're using attentional 'misdirection', a core technique of magic? And if you've ever bought an expensive item you'd sworn never to buy, you were probably unaware that the salesperson was, like an accomplished magician, a master at creating the 'illusion of choice'. Leading neuroscientists Stephen Macknik and Susana Martinez-Conde meet with magicians from all over the world to explain how the magician's art sheds light on consciousness, memory, attention, and belief. As the founders of the new discipline of NeuroMagic, they combine cutting-edge scientific research with startling insights into the tricks of the magic trade. By understanding how magic manipulates the processes in our brains, we can better understand how we work - in fields from law and education to marketing, health and psychology - for good and for ill.

How the Russian Mob Has Invaded America Verso Books

From the award-winning and bestselling author of *Cod* comes the dramatic, human story of a simple substance, an element almost as vital as water, that has created fortunes, provoked revolutions, directed economies and enlivened our recipes. Salt is common, easy to obtain and inexpensive. It is the stuff of kitchens and cooking. Yet trade routes were established, alliances built and empires secured - all for something that filled the oceans, bubbled up from springs, formed crusts in lake beds, and thickly veined a large part of the Earth's rock fairly close to the surface. From pre-history until just a century ago - when the mysteries of salt were revealed by modern chemistry and geology - no one knew that salt was virtually everywhere.

Accordingly, it was one of the most sought-after commodities in human history. Even today, salt is a major industry. Canada, Kurlansky tells us, is the world's sixth largest salt producer, with salt works in Ontario playing a major role in satisfying the Americans' insatiable demand. As he did in his highly acclaimed *Cod*, Mark Kurlansky once again illuminates the big picture by focusing on one seemingly modest detail. In the process, the world is revealed as never before.

LITERARY REVIEW 'Passionate.' HISTORY TODAY 'Compels attention.' IRISH TIMES 'Superb.' DAILY TELEGRAPH There is no present in Wales, And no future; There is only the past, *Brittle with Relics*. - 'A Welsh Landscape', R. S. Thomas In the closing third of the twentieth century, Wales experienced the simultaneous effects of deindustrialisation, the subsequent loss of employment and community cohesion, and the struggle for its language and identity. These changes were largely forced upon the country, whose own voice, rarely agreed upon within its borders, had to fight to be heard outside of Wales. *Brittle with Relics* is a history of the people of Wales undergoing some of the country's most seismic and traumatic events: the disasters of Aberfan and Tryweryn; the rise of the Welsh language movement; the Miners' Strike and its aftermath; and the narrow vote in favour of partial devolution. Featuring the voices of Neil Kinnock, Rowan Williams, Leanne Wood, Gruff Rhys, Michael Sheen, Nicky Wire, Sian James, Welsh language activists, members of former mining communities and many more, this is a vital history of a nation determined to survive, while maintaining the hope that Wales will one day thrive on its own terms. 'A testament to the brutal circumstances that bonded the communities of Wales into a new polity for the 21st century.' In the early hours of an August 2007 morning a gunfight broke out in an Italian restaurant in Duisburg, Germany; in less than five minutes over seventy shots were fired into the bodies of six men. Both the victims and the assassins were members of the 'Ndrangheta crime organization. Calabria's Mafia had brazenly shown its savage influence outside Italy for the first time. In *The Honored Society* award-winning investigative reporter Petra Reski reveals the Mafia menace lurking throughout the world-- from espresso bars in Palermo to European halls of parliament to the corporate headquarters of enormous agricultural firms. In haunting and exquisite prose she explores the Byzantine structure of the 'Ndrangheta, Cosa Nostra and other mafia clans throughout Italy -- the code they live by, the destruction they wreak, how they operate within the country and how they operate internationally. She shows how these syndicates dominate everything from nuclear waste disposal to hotel chains to the marijuana trade in Australia and cocaine trafficked throughout the world. Reski shows how figures such as Silvio Berlusconi were made by the Mafia, and how those who dared to defy its codes were broken. A searing portrait of the criminals who have come to control not only Italy but vast swathes of the globe, *The Honored Society* is a journalistic tour de force.
