If your cart has a lift kit installed often the rear end
of the golf cart is higher of the ground and will
cause oil to flow into the airbox causing excessive
smoke to flow from exhaust. A lifted cart causes
the dipstick to read too low and if you fill up with

oil to the Full mark you are actually over filled and oil will splash up into the airbox.

Amazon.com: EZGO Golf Cart Engine

The Robin Subaru is our Choice for 18hp or 25hp, the Kohler 31hp EFI is a great engine and the 35hp Briggs is a workhorse. The Briggs & Stratton 35hp (993cc) is built by Daihatsu and they build a great engine. The three cylinder turbo fuel injected 996cc made by Daihatsu is a smoking motor. You can only find it outside the USA.
