Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are

further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

Intermediate Accounting

This is the first biography of Stanley Mosk (1912-2001), iconic protector of civil rights and civil liberties during his 37 years as a justice of the Supreme Court of California (1964 to 2001). He had quickly risen as a well liked leader among Los Angeles reformers, as executive secretary to California governor Culbert Olson and then 16 years as a superior court judge. His

1958 election and service as state attorney general soon won national attention and the promise of likely election to the U.S. Senate, but an unexpected campaign twist augured a new course. This book frames Mosk's Supreme Court years and the landmark cases in which his opinions or biting dissents continue to resonate.
