I recently purchased a Roland D-50. The "Patch Number" buttons 7 and 8 are not working. For example, I can't enter sounds; 17, 18, 27, 28,...67, 68,..87, 88. I've restored the factory

settings per the manual and the Memory Card PN-D50-00 but no difference made. All other Patch Bank and Patch Number buttons are working properly.
