The Age of Caesar: Five Roman Lives Cambridge University Press

“ Plutarch regularly shows that great leaders transcend their own purely material interests and petty, personal vanities. Noble ideals actually do matter, in government as in life. ” —Michael Dirda, Washington Post Pompey, Caesar, Cicero, Brutus, Antony: the names still resonate across thousands of years. Major figures in the civil wars that brutally ended the Roman republic, their lives pose a question that haunts us still: how to safeguard a republic from the flaws of its

leaders. This reader ' s edition of Plutarch delivers a fresh translation of notable clarity, explanatory notes, and ample historical context in the Preface and Introduction.

Greek and Roman Lives Penguin UK

The history of Roman London approached in an entirely new way, focusing on the geography of daily life The rise and fall of one of the most important Roman cities in northern Europe is charted graphically by the use of maps and diagrams, showing at a glance the various stages in its development. Rather than focusing upon a handful of important figures such as procurators and statesmen, this book explores the lives and concerns of the ordinary citizens. Many books about Roman history seem to be preoccupied with basilicas, palaces, grand houses, statues, and mosaics; this book looks instead at the shops, houses, and streets in which the majority of the

60,000 inhabitants of the city spent their lives. In doing so, it reveals a city very different from the familiar images of a clean, white, classical metropolis.

The Roman Soldier University of Toronto Press

Lycurgus, Pericles, Solon, Nicias, Themistocles, Alcibiades, Cimon, Agesilaus, Alexander 'I treat the narrative of the Lives as a kind of mirror... The experience is like nothing so much as spending time in their company and living with them: I receive and welcome each of them in turn as my guest.' In the nine lives of this collection Plutarch introduces the reader to the major figures and periods of classical Greece. He portrays virtues to be emulated and vices to be avoided, but his purpose is also implicitly to educate and warn those in his own day who wielded power. In prose that is rich, elegant and sprinkled with learned references, he explores with an extraordinary degree of insight the interplay of character and political action. While drawing chiefly on historical sources, he brings to biography a natural storyteller's ear for a good anecdote. Throughout the ages Plutarch's Lives have been valued for their historical value and their charm. This new translation will introduce new generations to his urbane erudition. The most comprehensive selection available, it is accompanied by a lucid introduction, explanatory notes, bibliographies, maps and indexes.

Patriarchy, Property and Death in the Roman Family Oxford University Press, USA

Alexander * Demosthenes * Phocion * Eumenes * Demetrius * Pyrrhus * Agis and Cleomenes * Aratus * Philopoemen * Flamininus This selection of ten Lives traces the history of Hellenistic Greece from the rise of Macedon and Alexander's conquest of the Persian empire to the arrival of the Romans.

Plutarch's biographies of eminent politicians, rulers, and soldiers combine vivid portraits of their subjects with a wealth of historical information; they constitute a uniquely important source for the period. We see how Greek politics changed as Macedon's power grew, and we learn of the warlords who followed Alexander. Resistance to Macedon is reflected in the Lives of Demosthenes and Aratus, and that of Agis and Cleomenes, two revolutionary kings of Sparta. The volume concludes with the emergence of Rome in Greek affairs, and the life of Flamininus, the Roman general who defeated Philip V of Macedon. Plutarch's elegant style combines anecdote and erudition, humour and psychological insight, consummately translated by Robin Waterfield and introduced by Andrew Erskine. These Lives from the Hellenistic period complement Greek Lives and Roman Lives in Oxford World's Classics. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Roman Lives University of Michigan Press

A Companion to the Archaeology of the Roman Republic offers a diversity of perspectives to explore how differing approaches and methodologies can

contribute to a greater understanding of the formation of the Roman Republic. Brings together the experiences and ideas of archaeologists from around the world, with multiple backgrounds and areas of interest Offers a vibrant exploration of the ways in which archaeological methods can be used to explore different elements of the Roman Republican period Demonstrates that the Republic was not formed in a vacuum, but was influenced by non-Latin-speaking cultures from throughout the Mediterranean region Enables archaeological thinking in this area to be made accessible both to a more general audience and as a valuable addition to existing discourse Investigates the archaeology of the Roman Republican period with reference to material culture, landscape, technology, identity and empire

Inside Roman Libraries Oxford Handbooks Includes an account of political and military developments, and including sections on social, economic and cultural life, this book presents a survey of the Roman world at a time when the Principate was established, and the Pax Romana consolidated.

Marcus Porcius Cato (the Younger) is most famous for being Julius Caesar's nemesis. His sustained antagonism was in large part responsible for pushing the Romans towards civil war. Yet Cato never wanted war even though he used the threat of violence against Caesar. This strategic gamble misfired as Caesar, instead of yielding, marched on Rome, hurling the Republic into a bloody civil war. Refusing to inhabit a world ruled by Caesar, Cato took his own life. Although the Roman historian Sallust identified Cato and Caesar as the two most outstanding men of their age, modern scholars have tended to dismiss Cato as a cantankerous conservative who, while colorful, was not a critical player in the events that overtook the Republic. This book, in providing a much-needed reliable biography of Cato, contradicts that assessment. In addition to being Caesar's adversary, Cato is an important and fascinating historical figure in his own right, and his career-in particular, his idiosyncrasies-shed light on the changing political culture of the late Republic. Cato famously reached into Rome's hallowed past and found mannerisms and habits to adopt that transformed him into the foremost champion of ancestral custom. Thus Cato did things that seemed strange and even bizarre such as wearing an old-fashioned tint of purple on his senatorial toga, refusing to ride a horse when on public business, and going about barefoot and without the usual tunic as an undergarment. His extreme

conservatism—which became celebrated in later ages, especially in Enlightenment Europe and revolutionary America—was actually designed to give him a unique advantage in Roman politics. This is not to claim that he was insincere in his combative promotion of the *mos maiorum* (the way of the ancestors), but his political manipulation of the Romans' reverence for their traditions was masterful. By providing a new, detailed portrait of Cato, the book also presents a unique narrative of the age he helped shape and inadvertently destroy.

Greek Lives Psychology Press

Children and Everyday Life in the Roman and Late Antique World explores what it meant to be a child in the Roman world - what were children's concerns, interests and beliefs - and whether we can find traces of children's own cultures. By combining different theoretical approaches and source materials, the contributors explore the environments in which children lived, their experience of everyday life, and what the limits were for their agency. The volume brings together scholars of archaeology and material culture, classicists, ancient historians, theologians, and scholars of early Christianity and Judaism, all of whom have long been involved in the study of the social and cultural history of children. The topics discussed include children's living environments; clothing; childhood care; social relations; leisure and play; health and disability; upbringing and schooling; and children's experiences of death. While the main focus of the volume is on Late Antiquity its coverage begins with the early Roman Empire, and extends to the early ninth century CE. The result is the first book-length scrutiny of the agency and experience of pre-modern children.

Life, Death, and Entertainment in the Roman Empire W. W. Norton & Company

This book provides English translations of newly discovered texts in an easily understandable presentation, with extensive illustrations.

The Complete Collection of Plutarch's Parallel Lives Oxbow Books Limited Explains how the discipline, courage, and preparation of the Roman soldier combined with the strategies and tactics of his commander and the organization of the military establishment resulted in the conquest of many lands for the Roman Empire.

The Oxford Handbook of Roman Epigraphy Courier Corporation

Despite the fact that the majority of the inhabitants of the Roman Empire lived an agricultural existence and thus resided outside of urban centers, there is no denying the fact that the core of Roman civilization—its essential culture and politics—was based in cities. Even at the furthest boundaries of the Empire, Roman cities shared a remarkable and consistent similarity in terms of architecture, art, infrastructure, and organization which was modeled after the greatest city of all, Rome itself. In Gregory Aldrete's exhaustive account, readers will have the opportunity to peer into the inner workings of daily life in ancient Rome, to witness the full range of glory, cruelty, sophistication, and deprivation that characterized Roman cities, and will perhaps even gain new insight into the nature and history of urban existence in America today. Included are accounts of Rome's history, infrastructure, government, and inhabitants, as well as chapters on life and death, the dangers and pleasures of urban living, entertainment, religion, the emperors, and the economy. Additional sections explore two other important Roman cities: Ostia, an industrial port town, and Pompeii, the

doomed playground of the rich. This volume is ideal for high school and college students, as well as for anyone interested in examining the realities of life in ancient Rome. A chronology of the time period, maps, illustrations, a bibliography, and an index are also included.

Stories of Daily Life from the Roman World

Life and Letters on the Roman Frontier
Profile Books

The period of Egyptian history from its rule by the Macedonian Ptolemaic dynasty to its incorporation into the Roman and Byzantine empires has left a wealth of evidence for the lives of ordinary men and women. Texts (often personal letters) written on papyrus and other materials, objects of everyday use and funerary portraits have survived from the Graeco-Roman period of Egyptian history. But much of this unparalleled resource has been available only to specialists because of the difficulty of reading and interpreting it. Now eleven leading scholars in this field have collaborated to make available to students and other non-specialists a selection of over three hundred texts translated from Greek and Egyptian, as well as more than fifty illustrations, documenting the lives of women within this society, from queens to priestesses, property-owners to slave-girls, from birth
