Chronologically, the first engineering accomplishment featured in Rome: Engineering an Empire is the creation of a great sewer system, the cloaca maxima, which allowed the hilltop villages to consolidate, but the story presented by Rome: Engineering an Empire begins with the end of the Republic and Julius Caesar, whose engineering marvel was the building of a 1000-foot wooden bridge over the Rhine River in 10 days for Caesar's legions to cross. Military needs also dictated the construction ...

Despite their personal short comings, many of the Roman Empires great engineering accomplishments were introduced during the reign of the Caesars. The tradition continued under Vespasian, builder of the Coliseum, Trajan, builder of the Forum, and Hadrian, builder and possibly the designer of the Pantheon. Finally, a decade later Caracalla built a bath complex/recreation center in an effort to secure his own reputation in history. Rome_-_Engineering_an_Empire_Video_Questions.docx - Unit 2 ...
