A Course in Miracles (ACIM)—the self-study spiritual-thought system that teaches the way to love and forgiveness—has captured the minds and hearts of millions of people, and delivered inner peace where fear and pain once prevailed. Its universal message is unsurpassed in its power to heal. Yet many students report that they have difficulty grasping the principles, or encounter resistance to the lessons. So, even while they yearn for the spiritual freedom the Course offers, they put the book aside, hoping one day to get to it. Alan Cohen, ACIM student and teacher for over 30

years, takes the Big Picture ideas of the Course and brings them down to earth in practical, easy-to-understand lessons with plenty of real-life examples and applications. A Course in Miracles Made Easy is the Rosetta stone that will render the Course understandable and relatable; and, most importantly, generate practical, healing results in the lives of students. This unique reader-friendly guide will serve longtime students of the Course, as well as those seeking to acquaint themselves with the program.

Random House Books for Young Readers
NATIONAL BESTSELLER • For anyone who
wants to learn a foreign language, this is the
method that will finally make the words stick.
“A brilliant and thoroughly modern guide to
learning new languages.”—Gary Marcus,
cognitive psychologist and author of the New
York Times bestseller *Guitar Zero* At thirty
years old, Gabriel Wyner speaks six
languages fluently. He didn't learn them in
school—who does? Rather, he learned them in
the past few years, working on his own and
practicing on the subway, using simple
techniques and free online resources—and
here he wants to show others what he's

discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.
