Some 40 years ago, Leyland Australia ceased manufacturing passenger vehicles in

Australia. These days, many of the cars produced by Nuffield (Australia), the Austin Motor Company (Australia) the British Motor Corporation (Australia), British Leyland Motor Corporation of Australia and Leyland Australia from 1950 to 1982 remain popular and have become classics. Of particular interest to present day owners, registration authorities, car club officials, as well as motoring and engineering historians, is a record of what BMC/Leyland passenger vehicles were produced and the means by which they were identified. Our aim in this book is to provide an authoritative reference to this end.

How to Maintain and Modify Your Mini Cooper Haynes Publishing Group

Mini celebrates 60 amazing years of this iconic car, from its revolutionary introduction to the popularity of its new-generation models. The first two-door Mini, introduced in 1959 and built until 2000, revolutionized automotive design with its innovative front-wheel-drive layout that made the car appear bigger on the inside than the outside. In 1999, the Mini was voted the second most influential car of the 20th century, behind the Ford Model T.

Designed for British Motor Corporation (BMC) by Sir Alec Issigonis and manufactured in England, Australia, Spain, Belgium, Chile, Italy, Portugal, South Africa, Uruguay, Venezuela, and Yugoslavia, the Mini was as successful in competition as it was on the street, winning the Monte Carlo Rally four times from 1964 through 1967. Originally built by BMC, the Mini's later parent company, Rover, was acquired by BMW in 1994. In

2000, BMW sold most of the Rover Group but retained the Mini brand. The last and 5,387,862nd original Mini rolled off the production line in October, 2000. In July 2001, BMW launched production of the new-generation of Mini which was soon joined by Countryman, Clubman, convertible, Cooper Works, and numerous special editions. Nearly 20 years later, the new Minis remain as popular as the original from 1959.
