Runner's World Guide to Cross-Training Human Kinetics  
How to cross-train to improve running times and prevent overuse injuries--whether you are participating in your first 10-K or competing to win a marathon or triathlon If you want to enjoy a long, successful life of running, it's essential to incorporate non-running activities into your training program. Strength exercises will keep your muscles in balance. Flexibility exercises will keep them supple. And alternative endurance activities will help heal existing injuries while preventing future ones. In Runner's World Guide to Cross-Training, Matt Fitzgerald--seasoned runner, triathlete, sports and fitness journalist, and online coach to runners and triathletes--tells you everything you need to know about the very best cross-training exercises for runners, from the equipment you'll have to buy to the techniques you'll have to master. In addition to strength training and flexibility exercises, he recommends the six best non-impact cardiovascular activities for runners: pool running, elliptical training, bicycling, inline skating, swimming, and cross-country skiing. The book shows how to integrate running and cross-training, and features five complete sample programs that will train you to compete in a basic 10-K, advanced 10-K/half marathon, basic marathon, advanced marathon, and triathlon. Until now, there hasn't been a credible cross-training book designed especially for runners. With the imprimatur of Runner's World magazine--recognized everywhere as the most authoritative source of information on the sport--this excellent guide will be welcomed by runners at every level as the book to consult for advice on this vital topic.

Assess and develop your technique under clear no-nonsense guidance with detailed visuals to help you understand what your body is going through. Key pre- and post-run step-by-step stretches help you to protect yourself from injury and core and resistance-training exercises can help you to run faster and further. The Complete Running and Marathon Book is perfect for any new or aspiring runner looking to go the distance.

*Runner's World Run Less Run Faster* Critical Bench  
Half Marathon: A Complete Guide for Women is a must-have for adult women of any age at any fitness level who want to train for a half marathon. Using Jeff Galloway's proven Run Walk Run® method, this book offers a step-by-step program for women that will get them started with weekly training. The training plans follow the run-walk-run format, allowing the runner to increase her mileage while decreasing her time, safely and effectively. An added benefit of these training programs is that they can easily fit into any busy schedule because training needs to happen only three days a week. Along with the training programs, this book offers nutrition advice for women—what and when to eat and how to control weight while training. It offers advice on staying motivated and preventing injury while training as well. Also included is information on women-specific issues. Any woman looking to complete a half marathon will find all the information she needs to run-walk-run fast and finish her race strong.

VeloPress  
How to train for the 2 most popular race distances, the 5K and 10K or 3.1 and 6.2 miles. Holt uses training phases to get you strong and then gently to get you as fast as your body will allow you to go by exercising at the ideal intensity (speed and heartrate). 5 phases last from 2 to 10 weeks depending upon your weakness and fitness level. Programs at 20, 30, 40, 50 and 60 or more miles per week and at modest, moderate and high intensity.

The Running Revolution Penguin  
Based on new research in exercise physiology, author and running expert Matt Fitzgerald introduces a first-of-its-kind training strategy that he's named "Brain Training." Runners of all ages, backgrounds, and skill levels can learn to maximize their performance by supplying the brain with the right feedback. Based on Fitzgerald's eight-point brain training system, this book will help runners: - Resist running fatigue - Use cross-training as brain training - Master the art of pacing - Learn to run "in the zone" - Outsmart injuries - Fuel the brain for maximum performance Packed with cutting-edge research, real-world examples, and the wisdom of the world's top distance runners, Brain Training for Runners offers easily applied advice and delivers practical results for a better overall running experience.

*Brain Training For Runners* Simon and Schuster  
Have you always wanted to learn to run and experience the life-changing benefits of running? Or have you tried to start running in the past, but just couldn't stick with it? Maybe you thought you weren't meant to be a runner, or just didn't have the time, energy, motivation, or willpower to keep running. Whether you're brand-new to running, tried it in the past without much success, or you just can't get into a running groove, RUN FOR GOOD gives you a comprehensive roadmap to starting and maintaining a lifelong running habit. Based on her years of experience as a runner, certified running coach and trainer, and fitness writer/researcher, author Christine Luff gives you an expert-guided, step-by-step plan for creating an enduring running habit. In this book, you'll learn: -Tips on how to run, what to wear, and how to make running easier -How to establish a habit loop to make running part of your regular routine -How to deal with inevitable setbacks and roadblocks that pop up -How to run smartly and safely with the right training schedules -Tips, tricks, and effective strategies to stay motivated to keep running -Strategies for racing, proper nutrition, injury prevention to keep your running habit going -How to avoid issues and problems that have derailed your healthy habits in the past -Advice on how to make running a rewarding and fun part of your life. This ultimate guide to running will get you started on the right foot with running, help you develop (or re-discover) a love and gratitude for running, and inspire and motivate you to keep running - for good.

The Complete Running and Marathon Book The Experiment  
Jeff 's quest for the injury-free marathon training program led him to develop group training programs in 1978, and to author Runner 's World articles which have been used by hundreds of thousands of runners of all abilities. His training schedules have inspired the second wave of marathoners who follow the Galloway RUN-WALK-RUN™, low mileage, three-day suggestions to an over 98% success rate. Jeff has worked with over 200,000 average people in training for specific goals. Jeff is an inspirational speaker to over 200 running and fitness sessions each year. His innovative ideas have opened up the possibility of running and completing a marathon to almost everyone. Philosophically, Jeff believes that we were all designed to run and walk, and he keeps finding ways to bring more people into the positive world of exercise.  
80/20 Running At Last the Best

Cutting-edge advice on how to achieve your personal best, for everyone from casual runners to ultramarathoners. In 80/20 Running, respected running and fitness expert Matt Fitzgerald introduced his revolutionary training program and explained why doing 80 percent of runs at a lower intensity and just 20 percent at a higher intensity is the best way for runners at all levels--as well as cyclists, triathletes, and even weight-loss seekers--to improve their performance. Now, in this eye-opening follow-up, Fitzgerald teams with Olympic coach Ben Rosario to expand and update the 80/20 program to include ultramarathon training and such popular developments as the use of power meters. New research has bolstered the case that the 80/20 method is in fact that most effective way to train for distance running and other endurance sports. Run Like a Pro (Even If You 're Slow) shows readers how to take the best practices in elite

running and adopt them within the limits of their own ability, lifestyle, and budget.

10K and 5K Running, Training and Racing Everest Media LLC

Imagine training with the best distance runners and running coaches of our time, learning their favorite and most effective workouts, and discovering their hard-earned secrets to success. With Running Tough you'll find yourself running side by side with such world-class runners as Bill Rodgers, Libbie Hickman, Frank Shorter, Arthur Lydiard, Ron Clarke, Emil Zatopek, and Adam Goucher, tasting their unwavering dedication and determination, and viewing firsthand their training runs. Written by prolific running journalist Michael Sandrock, Running Tough organizes the workouts by training goals to create a user-friendly handbook. This allows you to develop a customized training plan using the most appropriate workouts for training and racing. You'll find chapters dedicated to - long runs, to help develop aerobic endurance - off-road training, to build and strengthen the legs; - fartlek training or the "speedplay," to discover variety; - interval workouts, to increase speed; - hill workouts, to build strength and stamina; - tempo runs, to push anaerobic thresholds; - recovery fun runs, to heal muscles while emphasizing the enjoyment of the sport; and - building a program, to prepare for competition. With Running Tough, you'll have the tools to create enhanced training programs, discover new plateaus in your workout regimes, and meet the challenges of world-class competition. You'll find that whether you're looking for increased strength and endurance, improved aerobic or anaerobic capacity, or just a competitive edge, Running Tough will help you train with more efficiency, more enthusiasm, and more variety.

Hal Higdon's Half Marathon Training Rodale

Eric Orton has spent a lifetime learning about running and the limitless possibilities of the human body and mind, and now he is ready to share his knowledge in a book that will open up a new world of achievement for runners everywhere. For Orton, this is a chance to instruct and inspire. For the running reader, it is a chance to make amazing new strides. The Cool Impossibleis intended for runners and aspiring runners of all levels of ability and experience, from those contemplating their first steps, to seasoned marathoners seeking to unlock the full range of their capabilities. Starting from the feet up, Eric guides the reader through his technique for building the perfect running body. With characteristic enthusiasm and directness, Orton will draw on the inspiration of the Tarahumara Indian runners and take the reader through his devoted training programme, complete with advice on nutrition and real-world applications, as well as Orton's concept of The Cool Impossible, the belief that 'the greatest reward from running is the opportunity to do more', not just in running but in life in general.

Half Marathon Human Kinetics

From a two-time Olympic coach and creator of the Pose Method who has trained the running elite, an essential guide for all runners seeking to go faster and farther without injury Christopher McDougall ’ s Born to Run—and the wildly popular natural running trend it sparked—changed the way we think about running, but it has also prompted many questions: Have we been running the wrong way? And, have we been running in the wrong kind of shoe? What is the safest type of foot strike? How many types are there? And what is a foot strike anyway? No existing guide has clearly addressed these concerns—until now. The Running Revolution provides both beginning and experienced runners with everything they need to know in order to safely and efficiently transition to and master a safer and more biomechanically efficient way of running that is guaranteed to improve performance and minimize wear and tear on the body. More than a one-size-fits-all guide, The Running Revolution provides readers with clear instructions, complete with helpful illustrations, that they can easily integrate into their unique running histories in order to run safely, intelligently, and efficiently for many years to come.

Galloway's 5K and 10K Running Hachette UK

Inspiration and practical tips for runners who prioritize enjoyment over pace and embrace their place as an "average" runner In her first book, popular runner blogger Amanda Brooks lays out the path to finding greater fulfillment in running for those who consider themselves "middle of the pack runners" -- they're not trying to win Boston (or even qualify for Boston); they just want to get strong and stay injury-free so they can continue to enjoy running. Run to the Finish is not your typical running

book. While it is filled with useful strategic training advice throughout, at its core, it is about embracing your place in the middle of the pack with humor and learning to love the run you've got without comparing yourself to other runners. Mixing practical advice like understanding the discomfort vs. pain, the mental side of running, and movements to treat the most common injuries with more playful elements such as "Favorite hilarious marathon signs" and "Weird Thoughts We all Have at the Start Line," Brooks is the down-to-earth, inspiring guide for everyone who wants to be happier with their run.
