Choosing Health uses student stories, social-networking tools, and a wealth of online resources to speak to today's students better than any other personal health textbook. With its magazine-style design and inclusion of real student stories (both online and in the printed text), this text is the one that you can most relate to – and the one that will most inspire you to choose a healthy lifestyle. Health-related stories from real college students are woven throughout the book, accompanied by videos of real students on the book's companion website. A "Health Online" feature points you to online podcasts, videos, and resources related to health topics and encourages them to become a part of Choosing Health's lively online health community via Facebook, Twitter, and YouTube. The text also provides unique, practical tools to help you see the relevance of health education and make informed decisions about their lifestyle choices. An ultra-modern, magazine-style design encourages you to read, and the writing style is conversational and student-friendly without watering down content or academic rigor.

Lying is an intrinsic part of our social fabric, but it is also a deeply problematic and misunderstood aspect of what makes us human. Ian Leslie takes us on a fascinating journey that makes us question not only our own relationship to the truth, but also virtually every daily encounter we have. On the way he dissects the history of the lie detector, how parents affect their children's attitude to lying (and vice versa), Who Wants to Be a Millionaire?, the philosophical ambiguity of telling the truth, Bill Clinton's presentational prowess, Wonder Woman's lasso of truth, and why we should be wary of anyone with more than 150 Facebook friends. Born Liars is thought-provoking, anecdotally driven narrative nonfiction at its best. Ian Leslie's intoxicating blend of anthropology, biology, cultural history, philosophy, and popular psychology belies a serious central message: that humans have evolved and thrived in large part because of their ability to deceive.

Ed Sikov builds a step-by-step curriculum for the appreciation of all types of narrative cinema, detailing the essential elements of film form and systematically training the spectator to be an active reader and critic. Sikov primes the eye and mind in the special techniques of film analysis. His description of mise-en-scene helps readers grasp the significance of montage, which in turn reveals the importance of a director's use of camera movement. He treats a number of fundamental factors in filmmaking, including editing, composition, lighting, the use of color and sound, and narrative. Film Studies works with any screening list and can be used within courses on film history, film theory, or popular culture. Straightforward explanations of core critical concepts, practical advice, and suggested assignments on particular technical, visual, and aesthetic aspects further anchor the reader's understanding of the formal language and anatomy of film.
