Soil Survey, Montgomery County, Illinois DIANE Publishing

This report presents the results of mechanical and chemical tests on 24 retrieved geosynthetics from 12 sites across the United States and provides a baseline databank of mechanical and chemical properties of many commonly used geosynthetics in transportation applications as tested by industry. It also provides a summary and synthesis of results and methods from site retrievals and comments on the significance of laboratory index testing in developing durability design protocols.

Coal Power & Combustion

Vols. for 19 - include abstracts.

Transportation Research Record

5 Stars! Doody's Review Service Life Cycle Nutrition: An Evidence-Based Approach uses the latest evidence-based research to explore the nutritional foundations and the growth, development and normal functioning of individuals through each stage of life. It covers the physiological, biochemical, sociological, and developmental factors that affect nutrient requirements and recommendations at various stages of the life cycle.

Bulletin
