Used Saab 9-5 for Sale in Denver, CO | Edmunds

9-5 B205/235 engines The following procedure is based on a decade's experience removing 9-5 power units. It differs from official practice and that which readers may have seen in workshop manuals. The SAAB WIS (Workshop Information System), advises technicians to drop the front subframe prior to lowering the power unit out of the engine bay.

Hello everyone, This will be my first tutorial post here, so if anyone has an easier way of doing this please post below. The main reason I am posting this is because I couldn't find a truly detailed, step-by-step guide on how to replace rear engine mount on 9-5. I found things like "the rear mount is a bear" on several different forums, so I wanted to give it a try and it was a success :D I ...

Replacing rear engine mount - Saab 9-5 4-cylinder 2.3 (top ...

The V6 engine was only available on Arc, SE, and Griffin models, although by 2004 it was replaced by a high pressure turbo straight-4, which by 2006 was producing 260 hp. In the long Saab tradition, some of the more impressive Saab 9-5 parts were those protecting its passengers. The Saab 9-5 introduced Saab's Active Head Restraints, which moved ...
