Saab 9 5 Lights Guide

The 9-5 uses the D1S bulb. The bulb is essentially the same, but the D1S has a box that's attached to the end of it (which I believe is the igniter.) The D2S bulb is just a bulb and the igniter is separate. (Regrettably the D1S bulb is less common and more expensive.

[Saab LED Repair - Home](#)

New in the place so first of all I want to say hello to everybody. Congratulations for this amazing forum! My 2004 9-5 Vector is equipped with xenon headlights and I have noticed that the left beam is too low. I know that xenon lights are automatically leveled but there should be something to set the "zero" level.
