Nissan Micra (K11 Series) Haynes Manuals
The purpose of this book is to provide a basic understanding of the aerodynamics involved in designing an ultra-streamlined land vehicle. It describes many of the important design goals and parameters for producing a low-drag body. It is designed to be a how-to manual for the budding ground-up solar car and ultralight vehicle constructor, as well as the solar/electric/ultralight vehicle enthusiast.

Amberley Publishing Limited
A cultural history of the Volkswagen Beetle as told through historical photographs, many never before published in the U.S. From the birth of the Beetle in wartime Germany through the development of the New Beetle prototype, Volkswagen Beetle: Portrait of a Legend celebrates a lighthearted, unusual view of the most successful automobile in history. This book is not a "how to identify your Beetle" book, nor is it a year-by-year charting of model changes. Rather, through other people's experiences of the car, it allows readers to recall their own fond memories of what it was really like to own a Beetle in its heyday.
