Saab Engine

Used Engines For Sale - Denver, CO | SWEngines

Saab H engine (B201) in a 1987 Saab 90 B201 is the original H engine with two valves per cylinder and a single overhead camshaft. It was introduced in 1981 and unlike the B engine it did not have the central shaft which used to power the distributor, oil- and coolant pump.

SAAB Parts - eEuroparts.com

Saab engine smoking. I was at a stop sign when the power steering suddenly went out and the engine started smoking. The temperature gauge was normal. I was about a minute from home so I turned around and drove it back home (possibly a bad idea). The serpentine belt had basically completely crumbled to pieces, as well as the idler pulley.

Saab H engine - Wikipedia

In 1984 the Saab " B202 " engine was introduced, that paved the way for the modern turbocharged 4-cylinder engine. Saab added a 16 valve cylinder head with double overhead camshafts. They retroactively renamed the 8-valve version the B201 and used B202 as the name of the new multi-valve unit. Another notable addition to the B202 was hydraulic valve lifters and Ecopower (" ep " in Italy, " (900)S " elsewhere), with a pre-heated catalytic converter for reduced emissions.
