The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to the second millenniums B.C.

This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world.

"There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time in a form available to the general reader. For the layman the book provides a readable and up-to-date introduction to a most fascinating culture. For the specialist it presents a synthesis with which he may not agree but from which he will nonetheless derive stimulation."—American Journal of Archaeology "An uncontested authority on the

civilization of Sumer, Professor Kramer writes with grace and urbanity."—Library Journal

Stand-Up Comedy in Theory, or, Abjection in America is the first study of stand-up comedy as a form of art. John Limon appreciates and analyzes the specific practice of stand-up itself, moving beyond theories of the joke, of the comic, and of comedy in general to

read stand-up through the lens of literary and cultural theory. Limon argues that stand-up is an artform best defined by its fascination with the abject, Julia Kristeva ' s term for those aspects of oneself that are obnoxious to one ' s sense of identity but that are nevertheless—like blood, feces, or urine—impossible to jettison once and for all. All of a comedian ' s life, Limon asserts, is abject in this sense. Limon begins with stand-up comics in the 1950s and 1960s—Lenny Bruce, Carl Reiner, Mel Brooks, Mike Nichols, Elaine May—when the norm of the profession was the Jewish, male, heterosexual comedian. He then moves toward the present with analyses of David Letterman, Richard Pryor, Ellen DeGeneres, and Paula Poundstone. Limon incorporates feminist, race, and queer theories to argue that the “ comedification ” of America—stand-up comedy ' s escape from its narrow origins—involves the repossession by black, female, queer, and Protestant comedians of what was black, female, queer, yet suburbanizing in Jewish, male, heterosexual comedy. Limon ' s formal definition of stand-up as abject art thus hinges on his claim that the great American comedians of the 1950s and 1960s located their comedy at the place (which would have been conceived in 1960 as a location between New York City or Chicago and their suburbs) where body is thrown off for the mind and materiality is thrown off for abstraction—at the place, that is, where American abjection has always found its home. As the first study of its kind, *Stand-Up Comedy in Theory, or, Abjection in America* will appeal to a wide audience including those interested in cultural studies, Jewish studies, gender and queer theory.
