From Bacteria to Plants The Revolt Against the Church
"In AD 381, Theodosius, emperor of the eastern Roman empire, issued a decree in which all his subjects were required to subscribe to a belief in the Trinity of the Father, Son, and Holy Spirit. This edict defined Christian orthodoxy and brought to an end a lively and wide-ranging debate about the nature of the Godhead; all other interpretations were now declared heretical. Moreover, for the first time in a thousand years of Greco-Roman civilization, free thought was unambiguously suppressed. Not since the attempt of the pharaoh Akhenaten to impose his god Aten on his Egyptian subjects in the fourteenth century BC had there been such a widesweeping programme of religious coercion. Yet surprisingly this political revolution, intended to bring inner cohesion to an empire under threat from the outside, has been airbrushed from historical record. Instead, it has been claimed that the Christian Church had reached a consensus on the Trinity which was promulgated at the Council of Constantinople in 381." "In this groundbreaking new book, acclaimed historian Charles Freeman shows that the council was a shambolic affair which only took place after Theodosius' decree had become law. In short, the Church was acquiescing in the overwhelming power of the

emperor. Freeman argues that Theodosius' edict and the subsequent suppression of paganism not only brought an end to the diversity of religious and philosophical beliefs throughout the empire, but created numerous theological problems for the Church, which have remained unsolved. The year AD 381, Freeman concludes, marked 'a turning point that time forgot'. "--BOOK JACKET.
