To be honest, the operating cost of a salt water pool is way less than a

traditional chlorine pool. You might be astonished to know that on

average the yearly chemical cost for a saltwater pool is somewhere

around \$70-\$120 as compared to chlorine pool cost that falls in the

range of \$300-\$800. How long after adding salt to my pool can I swim?

The Basics of Maintaining A Saltwater Pool - YouTube

Water in salt water pools feels much softer than water in traditional

chlorine pools. Even though your salt water pool will be generating its

own chlorine, most people consider it gentler on the pool and the

swimmer (source).

Salt Water Pool Maintenance Guide

It has become very common for people to use salt water pool systems struggle

with traditional chlorine-based maintenance. Once people switch to salt,

people get enthusiastic about how easy & cost-effective it is, as well as how much nicer the water is (its softer and gentler on the body).

Salt water is also less harsh on skin and hair than traditional chlorinated water. To maintain your salt water pool, you should keep the pool clean, with no debris or dirt. You should also test the salt water to ensure the chlorine, pH, and alkalinity levels are correct in the pool.
