A text book on Chemistry

MEGA Study Guide for NTSE 2021 (SAT & MAT) Class 10 Stage 1 & 2 - 12th Edition Peterson's PRINCIPLES OF MODERN CHEMISTRY has dominated the honors and high mainstream general chemistry courses and is considered the standard for the course. The fifth edition is a substantial revision that maintains the rigor of previous editions but reflects the exciting modern developments taking place in chemistry today. Authors David W. Oxtoby and H. P. Gillis provide a unique approach to learning chemical principles that emphasizes the total scientific process from observation to application placing general chemistry into a complete perspective for serious-minded science and engineering students. Chemical principles are illustrated by the use of modern materials, comparable to equipment found in the scientific industry. Students are therefore exposed to chemistry and its applications beyond the classroom. This text is perfect for those instructors who are looking for a more advanced general chemistry textbook.

Guide to RRB Junior Engineer Stage II Exam - Physics, Chemistry, General Awareness, Basics of Computers, Environment & Pollution Control Disha Publications

Using colorful cartoons, humorous illustrations, and an easy-to-read approach, The Human Body in Health and Illness, 5th Edition makes it fun to learn anatomy & physiology. Step-by-step explanations, clever features, and clinical examples simplify A&P concepts and relate A&P to the real world. Organized by body system, this book shows how each organ is structurally designed to perform specific physiological tasks while demonstrating what happens to the body when a system does not function properly. Written by well-known author and educator Barbara Herlihy, The Human Body in Health and Illness makes A&P concepts easy to understand even if you have a limited background in the sciences.

Guide to RRB Junior Engineer Stage II Electrical & Allied Engineering 3rd Edition Disha Publications

Connect students in grades 5 and up with science using Confusing Science Terms. This 80-page book helps students differentiate between confused word pairs or triples and perplexing science terminology. The book includes terms from the areas of physical, life, earth, and space science. It encourages students to use a science vocabulary journal to construct their own meanings for confusing terms, write sentences using the terms, and create visual representations for them. Students increase their knowledge and understanding of science concepts through vocabulary building while improving science literacy. This book includes decoding activities and alternative methods of instruction, such as hands-on and small-group activities, games, and journaling, which allow for differentiated instruction. The book supports National Science Education Standards.
