El Salvador, 1982,

is at the height of a ghastly civil war. Joan Didion travels from battlefields to body dumps, interviews a puppet president, considers the distinctly Salvadorean meaning of the verb 'to disappear' and trains a merciless eye not only on the terror there but also on the depredations and evasions of US foreign policy. **Salvador, by Joan Didion - Mark Falcoff, Commentary Magazine**

Salvador, set in 1982

Salvador: Amazon.co.uk: Didion, Joan: Books Joan Didion is an American writer who launched her career in the 1960s after winning an essay contest sponsored by Vogue magazine. Didion's writing during the 1960s through the late 1970s engaged audiences in the realities of the	counterculture of the 1960s and the Hollywood lifestyle. Her political writing often concentrated on the subtext of political and social rhetoric. In 1991, she wrote the earliest mainstream media article to suggest the Central Park Five had been wrongfully convicted. Didion
Salvador is a 1983
book-length essay
by Joan Didion on
American
involvement in El
Salvador. Didion
wrote the book after
visiting the country.
Didion spent two
weeks in El
Salvador and has
referred to the
experience as
"terrifying". She
was in the country
during the 1982 El
Salvador
earthquake.
Salvador — Joan
Didion
From the book,

"In 1982 Joan
Didion went to El
Salvador. Her
report on what she
saw there is written
with the brilliant
understated clarity
that has made her
one of the most
distinguished and
acute observers of
people, places and
feelings in American
writing today. It is
an illuminating and
authentic portrait of
a society, a time and

Joan Didion
gleaned the
essential reality of
El Salvadoran
society in the
1980's, after only a
short stay in the
country. I believe

she was there as a
journalist or
correspondent, who
based her stark
account on
conversations with
citizens, diplomats,
and military
personnel, as well as
her own keen eye.
