The company 's first tractor was the Zetor-25 with a 26-horsepower twin-cylinder diesel engine, which made since 1946 to 1961. In total, nearly 160 thousand tractors of this model made, of which more than half exported. The second model, launched in 1947, is a compact Zetor-15 tractor with a 15-hp single-cylinder diesel engine.

In that same year, Kubota was the first tractor company to develop a repair manual in digital format for the service and repair of the Kubota front end loader and backhoe implements. Later, other Kubota repair manuals were

created including an array of lawn and garden tractors and utility vehicles.

in the \$2000-\$2500 price

The 22 inch wheels and the
