Research in Education Routledge

The essence of research design is the ability to articulate your research question. The research question is the precursor to the study, and a well-crafted question encapsulates all of the design elements for that study. Based on more than 20 years of conducting research, collaborating with colleagues to formulate research projects, and experience advising doctoral students, author Dr. Elizabeth (Betsy) A. Baker forged a research design heuristic which she introduces in this book. She starts by dissecting the anatomy of a qualitative research question, outlines the role of paradigms in research design, describes strategies to use the anatomy as a design heuristic, and provides sample cases that track the decisions two researchers made while formulating a qualitative question. The book concludes with advice on how to move from the research question to the proposal. Throughout, the author provides handy worksheets that readers can complete as they work on crafting their own research question.

Speaking Across the Curriculum R&L Education

A National Book Award Longlist title! "A wondrous book, wise and wild and deeply true." —Kelly Barnhill, Newbery Medal-winning author of *The Girl Who Drank the Moon* "This is one of those books that haunts you long after you read it. Thought-provoking and magical." —Rick Riordan, author of the Percy Jackson series In the tradition of modern-day classics like Sara Pennypacker's *Pax* and Lois Lowry's *The Giver* comes a deep, compelling, heartbreaking, and completely one-of-a-kind novel about nine children who live on a mysterious island. On the island, everything is perfect. The sun rises in a sky filled with dancing shapes; the wind, water, and trees shelter and protect those who live there; when the nine children go to sleep in their cabins, it is with full stomachs and joy in their hearts. And only one thing ever changes: on that day, each year, when a boat appears from the mist upon the ocean carrying one young child to join them—and taking the eldest one away, never to be seen again. Today's Changing is no different. The boat arrives, taking away Jinny's best friend, Deen, replacing him with a new little girl named Ess, and leaving Jinny as the new Elder. Jinny knows her responsibility now—to teach Ess everything she needs to know about the island, to keep things as they've always been. But will she be ready for the inevitable day when the boat will come back—and take her away forever from the only home she's known? "A unique and compelling story about nine children who live with no adults on a mysterious island. Anyone who has ever been scared of leaving their family will love this book" (from the *Brightly.com* review, which named *Orphan Island* a best book of 2017).

Speaking Across the Curriculum gives teachers ready-made speaking and listening activities that can be infused into any curriculum. Over 50 activities help teachers encourage debate and discussion and teach students speaking and listening skills. Students will learn how to outline a speech, build active listening skills, develop a media presentation, persuade an audience and speak spontaneously. Activities also help students analyze and evaluate arguments and sources, including web sites.

Teaching Writing With Rubrics Corwin Press

Becoming a Teacher of Writing in Elementary Classrooms nurtures teachers' identities as writers, connects to the realities of writing instruction in real and diverse classrooms, and encourages critical and creative thinking. This text is about writing instruction as a journey teachers and students embark on together. The focus is on learning how to teach writing through specific teaching and learning structures found in the Writing Studio: mini-lessons; teacher and peer conferencing; guided writing; and sharing, celebrating, and broadcasting writing. Pedagogical features include teaching structures and strategies, "Problematising Practice" classroom scenarios, assessment resources, and a Companion Website. Because a teacher who views him or herself as a writer is best positioned to implement the Writing Studio, a parallel text, *Becoming-writer*, give readers space to consider who they are as a writer, their personal process as a writer, and who they might become as a writer.

Home Schooling: During COVID-19 and Beyond By: Deborah Nichols Poulos

Homeschooling has been a challenge for parents and grandparents who have worked so well to keep their children engaged in learning this pandemic year. Debbie speaks to respect and humor in this second book, which are so important for kids and parent/teachers. This book will be a good organizational tool for future homeschoolers and can be adapted to all teaching levels. -- Carole Plack, retired Administrator, Yolo County Office of Education; parent from Debbie Poulos' 6th grade class, and grandparent _____ Ms. Nichols Poulos was my son's 5th grade teacher

and, although a bright child, he had certain behavior issues which created challenges in the classroom. Debbie was the only teacher my son had throughout his schooling that I felt really understood him. She knew how to work with him to help him achieve his best potential; to feel cared about and accepted at school. Her skills, knowledge and abilities, along with her compassion for her students, made her an outstanding teacher. She was unforgettable to her students and their parents alike. Home Schooling: During COVID-19 and Beyond is a treasure trove of information parents (and grandparents!) can use to achieve the same success with their children. She has pulled from her first book, *The Conscious Teacher*, written primarily for teachers, what she thinks will be of the most help to parents. She has added some new information as well. The book's sections on behavior standards and working with gifted students are especially helpful as a parent and now as I work with my grandkids as they school at home. The advice on how to teach the various subjects of reading, writing, math, social studies and computer skills is invaluable. I have greater confidence to help the kids learn at home, regardless of whether they are primarily learning remotely or in a classroom; this book gives you the tools to enrich their learning. -- Sue Woods, Mediator/Facilitator; Consensus and Collaboration Program, CSUS; BA (1975) Social Welfare, San Diego State University _____ I'm a grandparent and not homeschooling on a regular basis, but I am often helping grandkids with schoolwork. So Home Schooling: During COVID-19 and Beyond is helpful even for having a successful single lesson. The parts about mutual respect and working WITH your student are very useful. The book is well organized, easy to understand and is full of specific routines for productive and rewarding homeschooling for teacher and student. Debbie taught my daughter, Vinci, in fourth grade and it was a wonderful year for her. She gained the necessary confidence to succeed academically in Debbie's class that propelled her lively mind and scholastic achievements to this day. -- Dawn Daro, mother of Vinci Daro, B.A. and secondary teaching credential UC Berkeley, taught Junior High Richmond Unified School District _____ For parents new to teaching, as for anybody else, simple tools can help a lot. Deborah Nichols Poulos' Home Schooling: During COVID-19 and Beyond supplies them in a well-organized format. For math, she gives you handy grids for adding, subtracting, multiplying, and dividing, plus simple tricks that aid intuition, such as the use of manipulative objects. To build up reading and spelling, she offers bonus devices for rewarding new learning without any mark-downs for errors. For writing, try her tips on building sentences and paragraphs. Positive feedback, no tears. Even without covid, this book would have been timely. -- Peter and Lin Lindert, parents of Nick Lindert, one of Deborah's students You can contact Ms. Nichols Poulos at dnpoulos@urcad.org
