My Last Duchess Yale University Press Learning how to learn is an essential preparation for lifelong learning. Whilst this is widely acknowledged by teachers, they

have lacked a rich professional knowledge base from which they can teach their pupils how to learn. This book makes a major contribution to the creation of such a professional knowledge base for teachers by building on previous work associated with ' formative assessment ' or ' assessment for learning ' which has a strong evidence base, and is now being promoted nationally and internationally. However, it adds an important new dimension by reporting the conditions within schools, and across networks of schools, that are conducive to the promotion, in classrooms, of learning

how to learn as an extension of assessment for learning. There is a companion book, *Learning How to Learn in Classrooms: Tools for schools* (also available from Routledge), which provides practical resources for those teachers looking to put into practice the principles covered in this book.

Gorgeous, spirited and extravagantly rich, Cora Cash is the closest thing 1890s New York society has to a princess. Her masquerade ball is the prelude to a campaign that will see her mother whisk Cora to Europe, where Mrs Cash wants nothing less than a title for her daughter. In England, impoverished blue-bloods are queueing up for introductions to American heiresses, overlooking the sometimes lowly origins of their fortunes. Cora makes a dazzling impression, but the English aristocracy is a realm fraught with arcane rules and pitfalls, and there are those less than eager to

welcome a wealthy outsider...

"The Trial", however, was not published until 1925, after Kafka's death. Othello (The Tragedy of Othello,

the Moor of Venice) is a tragedy by William Shakespeare, believed to have been written in 1603. It is based on the story *Un Capitano Moro* ("A Moorish Captain") by Cinthio (a disciple of Boccaccio's), first published in 1565. The story revolves around its two central characters: Othello, a Moorish general in the Venetian army, and his treacherous ensign, Iago. Given its varied and enduring themes of racism, love, jealousy, betrayal, revenge, and repentance, Othello is still often performed in professional and community theatre alike, and has been the source for numerous operatic, film, and literary adaptations.

"The Yellow Wallpaper" is a

short story by American writer

Charlotte Perkins Gilman, first

published in January 1892 in

The New England Magazine.[1] It

is regarded as an important

early work of American feminist

literature, due to its

illustration of the attitudes

towards mental and physical

health of women in the 19th

century. Narrated in the first

person, the story is a

collection of journal entries

written by a woman whose

physician husband (John) has

rented an old mansion for the

summer. Forgoing other rooms in

the house, the couple moves

into the upstairs nursery. As a

form of treatment, the unnamed

woman is forbidden from

working, and is encouraged to

eat well and get plenty of air,

so she can recuperate from what

he calls a "temporary nervous

**Lust in the Aisles** Macmillan Colonial architecture and urbanism carved its way through space: ordering and classifying the built environment, while projecting the authority of European powers across Africa in the name of science and progress. The built urban fabric left by colonial powers attests to its lingering impacts in shaping the present and the future trajectory of postcolonial cities in Africa. Colonial Architecture and Urbanism explores the intersection between architecture and urbanism as discursive cultural projects in Africa. Like other colonial

institutions such as the courts, police, prisons, and schools, that were crucial in establishing and maintaining political domination, colonial architecture and urbanism played a pivotal role in shaping the spatial and social structures of African cities during the 19th and 20th centuries. Indeed, it is the cultural destination of colonial architecture and urbanism and the connection between them and colonialism that the volume seeks to critically address. The contributions drawn from different interdisciplinary fields map the historical processes of colonial architecture and urbanism and bring into sharp focus the dynamic conditions in which colonial states, officials, architects, planners, medical doctors and missionaries mutually constructed a hierarchical and exclusionary built environment that served

the wider colonial project in Africa.
