`A comprehensive, well-written and beautifully organized book on publishing articles in the humanities and social sciences that will help its readers write forward with a first-rate guide as good company.' - Joan Bolker, author of Writing Your Dissertation in Fifteen Minutes a Day

`Humorous, direct, authentic ... a seamless weave of experience, anecdote, and research.' - Kathleen McHugh, professor and director of the UCLA Center for the Study of Women Wendy Laura Belcher's Writing Your Journal Article in Twelve Weeks: A Guide to Academic Publishing Success is a revolutionary approach to enabling academic authors to overcome their anxieties and produce the publications that are essential to succeeding in their fields. Each week, readers learn a particular feature of strong articles and work on revising theirs accordingly. At the end of twelve weeks, they send their article to a journal. This invaluable resource is the only guide that focuses specifically on publishing humanities and social science journal articles.

Anyone who has ever entrusted a troubling secret to a journal, or mourned a broken heart with a friend, knows the feeling of relief that expressing painful emotions can bring. This book presents astonishing evidence that personal self-disclosure is not only good for our emotional health, but boosts our physical health as well. Psychologist James W. Pennebaker has conducted controlled clinical research that sheds new light on the powerful mind body connection. This book interweaves his findings with insightful case studies on secret-keeping, confession, and the hidden price of silence. Filled with information and encouragement, Opening Up explains: *Why suppressing inner problems takes a devastating toll on health *How long-buried trauma affects the immune system *How writing about your problems can improve your health *Why it's never too late to heal old emotional wounds *When self-disclosure may be risky--and how to know whom to trust

Many scientists and engineers consider themselves poor writers or find the writing process difficult. The good news is that you do not have to be a talented writer to produce a good scientific paper, but you do have to be a careful writer. In particular, writing for a peer-reviewed scientific or engineering journal requires learning and executing a specific formula for presenting scientific work. This book is all about teaching the style and conventions of writing for a peer-reviewed scientific journal. From structure to style, titles to tables, abstracts to author lists, this book gives practical advice about the process of writing a paper and getting it published.
