Nursing and midwifery students are required to communicate in writing in a variety of forms, for a variety of potential audiences including their colleagues, allied health professionals, administrators and, most importantly, their patients and the public. Dena Bain Taylor is an experienced teacher of writing and critical skills across the range of allied health professions, and understands the types of writing nursing and midwifery students do and the writing issues they face. Her accessible, straightforward book - tailored specifically to the content and conventions of nursing and midwifery curricula - teaches students to write persuasively and correctly, both to support them in their courses and to prepare them for their professional careers. The book: - offers practical strategies for using language to achieve clear, persuasive writing; - provides clear explanations of underlying principles; - contains samples of good and improvable writing, leading the student step-by-step through the whole writing process; - focuses on the genres and styles of writing that nursing and midwifery students are typically asked for. With regular summaries, learning aids, checklists and a glossary of key terms, nursing and midwifery students at all levels will find this book easy to follow and handy to refer to for help with the writing they need to do throughout their course.

Mathematics research papers provide a forum for all mathematics enthusiasts to exercise their mathematical experience, expertise and excitement. The research paper process epitomizes the differentiation of instruction, as each student chooses their own topic and extends it as far as their desire takes them. The features and benefits of the research paper process offer a natural alignment with all eight Common Core State Standards for Mathematical Practice. Writing Math Research Papers serves both as a text for students and as a resource for instructors and administrators. This program received the 1997 Chevron Best Practices in Education Award as the premier high school mathematics course in the United States. This book is an excellent resource for students and teachers of the International Baccalaureate program.

*The Ultimate Journal Writing Book for Kids & Adults* Shell Education

Anyone who has ever entrusted a troubling secret to a journal, or mourned a broken heart with a friend, knows the feeling of relief that expressing painful emotions can bring. This book presents astonishing evidence that personal self-disclosure is not only good for our emotional health, but boosts our physical health as well. Psychologist James W. Pennebaker has conducted controlled clinical research that sheds new light on the powerful mind body connection. This book interweaves his findings with insightful case studies on secret-keeping, confession, and the hidden price of silence. Filled with information and encouragement, Opening Up explains: \*Why suppressing inner problems takes a devastating toll on health \*How long-buried trauma affects the immune system \*How writing about your problems can improve your health \*Why it's never too late to heal old emotional wounds \*When self-disclosure may be risky--and how to know whom to trust
