Needs Analysis for Language Course Design CRC Press

An essential toolkit for language teachers who need to design language courses for working professionals, vocational schools, undergraduate and graduate students. Needs Analysis for Language Course Design is a handbook for those who prepare and teach courses in ESP. The book shows the reader how needs analysis can be used to create a detailed profile of the professional learner and how this profile can then be used to tailor make a course in language and communication for working professionals and for those studying towards a

professional or vocational qualification.

Praise for Hack Recruiting "It is a brilliant piece of work. A must-read for those of us in global corporations, or companies of any size really, that seek to act NOW." --Julia Martensen, Head of HR Strategy and Innovation at DB Schenker. "Victor Assad uncovers longstanding empirical research from I/O psychologists on how to best match job candidates to jobs and the best of today's digital technology. He sees a world (that is emerging today) in which AI ontologies (which are identifying information and relationships about today's global and diverse workforces) will make significant improvements for matching candidates to jobs while reducing recruiting cycle times, costs and selection biases. Victor points

out that HR now has the digital tools it needs to dramatically transform recruiting and the role of the recruiter. HR can now build strategic talent pools, improve the employee experience, and digitally collect insightful analytics that will open up a new era of understanding on what truly drives employee performance and innovation." --Angela Hood, Founder and CEO of ThisWay Global. "Must read book if you are a recruiter or talent acquisition head. It goes over best practices and hacks each step of recruiting." --Sandeep Purwar, Founder/CEO, Bevov
