Composition research consistently demonstrates that the social context of writing determines the majority of conventions any writer must observe. Still, most universities organize the required first-year composition course as if there were an intuitive set of general writing "skills" usable across academic and work-world settings. In *College Writing and Beyond: A New Framework for University Writing Instruction*, Anne Beaufort reports on a longitudinal study comparing one student's experience in FYC, in history, in engineering, and in his post-college writing. Her data illuminate the struggle of college students to transfer what they learn about "general writing" from one context to another. Her findings suggest ultimately not that we must abolish FYC, but that we must go beyond even genre theory in reconceiving it. Accordingly, Beaufort would argue that the FYC course should abandon its hope to teach a sort of general academic discourse, and instead should systematically teach strategies of responding to contextual elements that impinge on the writing situation. Her data urge attention to issues of learning transfer, and to developmentally sound linkages in writing instruction within and across disciplines. Beaufort advocates special attention to discourse community theory, for its power to help students perceive and understand the context of writing.

Teaching information writing with intent and purpose Routledge

INSTANT NEW YORK TIMES

BESTSELLER A dramatically new

understanding of human history, challenging our most fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or thuggish and warlike.

Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what's really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The answers are often unexpected, and suggest that the course of human history may be less set in stone,

and more full of playful, hopeful possibilities, than we tend to assume. *The Dawn of Everything* fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable intellectual range, animated by curiosity, moral vision, and a faith in the power of direct action. Includes Black-and-White Illustrations

The Future of Newspapers Random House Digital, Inc.

This book celebrates and seeks to understand the overlooked appearances of hybrid forms in visual culture; artefacts and practices that meld or interweave incongruous elements in innovative ways. And with an emphasis on the material aspects of such entities, the book adopts the term 'mixed form' for them. Focusing on key phenomena in the last half millennium such as the cabinet of curiosities, the broadside ballad and the chapbook as early forms of image-text, the scrapbook, assemblage, and, in digital times, so-called 'mixed reality,' the book argues that while the quality of inconsistency is traditionally dismissed, its expression nevertheless plays a vital role in social life. Crucially, *Mixed Forms of Visual Culture* relates its phenomena to the emergence of the division of labour under capitalism and addresses the shifting relationships between art and life, when singularity and uniformity are variously valued and dismissed in the two arenas, and at different points in history. Two of the book's chapters take the form of visual essays, with one comprising an anthology of found scrapbook pages and the other offering an analysis of artists' scrapbooks. The book is richly illustrated throughout.

Knopf

From the globally acclaimed, best-selling novelist and author of *We Should All Be Feminists*, a timely and deeply personal account of the loss of her father.

"Essential." —Booklist Notes on Grief is an exquisite work of meditation, remembrance, and hope, written in the wake of

Chimamanda Ngozi Adichie's beloved father's death in the summer of 2020. As the COVID-19 pandemic raged around the world, and kept Adichie and her family members separated from one another, her

father succumbed unexpectedly to complications of kidney failure. Expanding on her original *New Yorker* piece, Adichie shares how this loss shook her to her core. She writes about being one of the millions of people grieving this year; about the familial and cultural dimensions of grief and also about the loneliness and anger that are unavoidable in it. With signature precision of language, and glittering, devastating detail on the page—and never without touches of rich, honest humor—Adichie weaves together her own experience of her father's death with threads of his life story, from his remarkable survival during the Biafran war, through a long career as a statistics professor, into the days of the pandemic in which he'd stay connected with his children and grandchildren over video chat from the family home in Abba, Nigeria. In the compact format of *We Should All Be Feminists* and *Dear Ijeawele*, Adichie delivers a gem of a book—a book that fundamentally connects us to one another as it probes one of the most universal human experiences. *Notes on Grief* is a book for this moment—a work readers will treasure and share now more than ever—and yet will prove durable and timeless, an indispensable addition to Adichie's canon.
