When a dissertation crosses my desk, I usually want to grab it by its metaphorical lapels and give it a good shake. "You know something!" I would say if it could hear me. "Now tell it to us in language we can understand!" Since its publication in 2005, *From Dissertation to Book* has helped thousands of young academic authors get their books beyond the thesis committee and into the hands of interested publishers and general readers. Now revised and updated to reflect the evolution of scholarly publishing, this edition includes a new chapter arguing that the future of academic writing is in the hands of young scholars who must create work that meets the broader expectations of readers rather than the narrow requirements of academic committees. At the heart of *From Dissertation to Book* is the idea that revising the dissertation is fundamentally

a process of shifting its focus from the concerns of a narrow audience—a committee or advisors—to those of a broader scholarly audience that wants writing to be both informative and engaging. William Germano offers clear guidance on how to do this, with advice on such topics as rethinking the table of contents, taming runaway footnotes, shaping chapter length, and confronting the limitations of jargon, alongside helpful timetables for light or heavy revision. Germano draws on his years of experience in both academia and publishing to show writers how to turn a dissertation into a book that an audience will actually enjoy, whether reading on a page or a screen. Germano also acknowledges that not all dissertations can or even should become books and explores other, often overlooked, options, such as turning them into journal articles or chapters in an edited work. With clear directions, engaging examples, and an eye for the idiosyncrasies of academic writing, *From Dissertation to Book* reveals to recent PhDs the secrets of careful and thoughtful revision—a skill that will be truly invaluable as they add "author" to their curriculum vitae.

G. K. Chesterton is remembered as a brilliant creator of nonsense and satirical verse, author of the Father Brown stories and the innovative novel, *The Man who was Thursday*, and yet today he is not counted among the major English novelists and poets. However, this major new biography argues that Chesterton should be seen as the successor of the great Victorian prose writers, Carlyle, Arnold, Ruskin, and above all Newman. Chesterton's achievement as one of the great English literary critics has not hitherto been fully recognized, perhaps because his best literary criticism is of prose rather than poetry. Ian Ker remedies this neglect, paying particular attention to Chesterton's writings on the Victorians, especially Dickens. As a social and political thinker, Chesterton is contrasted here with contemporary intellectuals like Bernard Shaw and H. G. Wells in his championing of democracy and the masses. Pre-eminently a controversialist, as revealed in his prolific journalistic output, he became a formidable apologist for Christianity and Catholicism, as well as a powerful satirist of anti-Catholicism. This full-length life of G. K. Chesterton is the first comprehensive biography of both the man and the writer. It draws on many unpublished letters and papers to evoke Chesterton's joyful humour, his humility and affinity to the common man, and his love of the ordinary things of life.

In the past stars have been studied as cogs in a mass entertainment industry selling desires and ideologies. But since the 1970s, new approaches have reopened debate, as film and cultural studies try to account for the active role of the star in producing meanings, pleasures, and identities for a diversity of audiences. *Stardom* brings together for the first time some of the major writing of the last decade which seeks to understand the phenomenon of stars and stardom. Gathered under four headings - *The System, Stars and Society, Performers and Signs, Desire and Politics* - these essays represent a range of approaches drawn from film history, sociology, textual analysis, audience research, psychoanalysis, and cultural politics. They raise important issues about the politics of representation and the cultural limitations and possibilities of stars.

A little more than seventy-five years ago, Kate L. Turabian drafted a set of guidelines to help students understand how to write, cite, and formally submit research writing. Seven editions and more than nine million copies later, the name Turabian has become synonymous with best practices in research writing and style. Her *Manual for Writers* continues to be the gold standard for generations of college and graduate students in virtually all academic disciplines. Now in its eighth edition, *A Manual for Writers of Research Papers, Theses, and Dissertations* has been fully revised to meet the needs of today's writers and researchers. The Manual retains its familiar three-part structure, beginning with an overview of the steps in the research and writing process, including formulating questions, reading critically, building arguments, and revising drafts. Part II provides an overview of citation practices with detailed information on the two main scholarly citation styles (notes-bibliography and author-date), an

array of source types with contemporary examples, and detailed guidance on citing online resources. The final section treats all matters of editorial style, with advice on punctuation, capitalization, spelling, abbreviations, table formatting, and the use of quotations. Style and citation recommendations have been revised throughout to reflect the sixteenth edition of *The Chicago Manual of Style*. With an appendix on paper format and submission that has been vetted by dissertation officials from across the country and a bibliography with the most up-to-date listing of critical resources available, *A Manual for Writers* remains the essential resource for students and their teachers.
