The most common types of nursing
documentation include the following: Nursing
Progress Notes. Nursing progress notes are one
of the most frequent and time consuming of

nursing documentation tasks. In addition to the
historical narrative notes, several other systems
have been devised over the years to save time,
improve documentation and standardized
nursing notes. Types of progress note
documentation systems include: Narrative
Nursing Notes. Traditional

Stay out of court with proper documentation : Nursing2020

Record any belongings left on the patient.
Document the disposition of the patient's body
and the name, telephone number, and address
of the funeral home. List the names of family
members who were present at the time of
death. If they weren't present, note the name of
the family member notified and who viewed
the body.
