When Toya meets Folami and
joins the activist collective
RiseUP!, she thinks she 's
found her life 's purpose.
Folami 's sensuality and her
passion for social justice leave
Toya feeling that, at last, she 's
met someone she can share all
parts of her life with. But when a
controversial police shooting
blurs the lines between the
personal and the political, Toya
is forced to examine her
identity, her passions, and her
allegiances. Folami, a mature

and dedicated activist, challenges
Toya 's commitment to the
struggle while threatening to pull
her back into the closet to
maintain the intense connection
they share. However, Nina, a
young, free-spirited artist, invites
Toya to explore the intersections
between sexual and political
freedom. With the mounting
tensions and social unrest
threatening to tear the
community apart, can Toya find
a safe place to live and love while
working to uplift her people?

For more than fifteen years, the manuscript editing department of the Press has overseen online publication of the monthly "Chicago Manual of Style" Q&A, choosing interesting questions from a steady stream of publishing-related queries from "Manual" users and providing thoughtful

and/or humorous answers in a smart, direct, and occasionally cheeky voice. More than 28,000 followers have signed up to receive e-mail notification when new Q& A content is posted monthly, and the site receives well over half a million visitors annually. "But Can I Start a Sentence with But ?" culls from the extensive Q&A archive a small collection of the most helpful and humorous of the postings and provides a brief foreword and chapter introductions. The material is organized

into seven chapters that cover matters of editorial style, capitalization, punctuation, grammar and usage, citation and quotation, formatting and other non-language issues, and a final chapter of miscellaneous items. Together they offer an informative and amusing read for editors, other publishing professionals, and language lovers of all stripes." The Second Edition of Johnny Saldaña's international bestseller provides an in-depth guide

to the multiple approaches available for coding qualitative data. Fully up to date, it includes new chapters, more coding techniques and an additional glossary. Clear, practical and authoritative, the book:
-describes how coding initiates qualitative data analysis
-demonstrates the writing of analytic memos
-discusses available analytic software
-suggests how best to use The Coding Manual for Qualitative Researchers for particular studies. In total, 32 coding methods are profiled

that can be applied to a range of research genres from grounded theory to phenomenology to narrative inquiry. For each approach, Saldaña discusses the method's origins, a description of the method, practical applications, and a clearly illustrated example with analytic follow-up. A unique and invaluable reference for students, teachers, and practitioners of qualitative inquiry, this book is essential reading across the social sciences.

David Crystal's classic English as a Global Language considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a

difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

Many scientists and engineers consider themselves poor writers or find the writing process difficult. The good news is that you do not have to be a

talented writer to produce a good scientific paper, but you do have to be a careful writer. In particular, writing for a peer-reviewed scientific or engineering journal requires learning and executing a specific formula for presenting scientific work. This book is all about teaching the style and conventions of writing for a peer-reviewed scientific journal. From structure to style, titles to tables, abstracts to author lists, this book gives practical advice about the process of writing a paper and getting it published.
