In Catching Fire, one of the most ambitious arguments about human evolution since Darwin's Descent of Man, renowned primatologist Richard Wrangham makes the claim that learning to cook food was the hinge on which human evolution turned. Eating cooked food, he argues, enabled us to evolve our large brains, and cooking itself became a primary focus of human social activity—in short, cooking made us the social, intelligent, and sexual species we are today.

In July, British Airways announced that it would retire all of its Boeing 747-400s prematurely, given the impact that the pandemic has had on air travel demand. The airline had 28 Boeing 747s, which were an average of 23 years old. As any avgeek can attest to, seeing airlines retire this iconic plane is a sad sight.

[Catching Fire: How Cooking Made Us Human: Wrangham ...](#)

I was delighted with the two disc edition of Catching Fire because I am always interested in the work that goes into visualizing a story, particularly if it is not set in the present century. Stories set in the future challenge the imagination of the art department as well as the costume department.

The Hunger Games: Catching Fire is the second film in The Hunger Games film series. It introduced viewers to many new and interesting characters: Finnick, Johanna, Plutarch, Beetee, and Mags, just to name a few. It was, after all, a new Hunger Games. But it missed some characters.
