This handbook is an authoritative, comprehensive reference on optical networks, the backbone of today ' s communication and information society.

The book reviews the many underlying technologies that enable the global optical communications infrastructure, but also explains current research trends targeted towards continued capacity scaling and enhanced networking flexibility in support of an unabated traffic growth fueled by ever-emerging new applications. The book is divided into four parts: Optical

Subsystems for Transmission and Switching, Core Networks, Datacenter and Super-Computer Networking, and Optical Access and Wireless Networks. Each chapter is written by world-renown experts that represent academia, industry, and international government and regulatory agencies. Every chapter provides a complete picture of its field, from entry-level

information to a snapshot of the respective state-of-the-art technologies to emerging research trends, providing something useful for the novice who wants to get familiar with the field to the expert who wants to get a concise view of future trends.

Christi Columbo is a Bio-Chemist for Futura Consulting in New York City. She

has done vast amounts of work on the Netrosia Project which if successful will create a chemical compound that will irradiate the Jihadi Bin Laden forces in Afghanistan caves. Alfred Monk became friends with Christie after meeting on Matchmate.com and a spark of romance ensued afterward. Alfred is a programmer for Tech One software and is

working on the Netrosia project and doesn't know it. When Christie takes a flight to London to finalize the missile deal and put it into action with the Air Force the Continental flight that she was on was bombed by terrorists. Onboard was Senator Douglas Eisenhower whose body was found dead in the Atlantic. Christie's body was never found. With the help of Angelica and Tony who

retrieve Alfred from questioning at the NYPD Alfred believes Christie is still alive and will stop at nothing to find her. This book has Army Rangers storming in on a Saudi compound, Navy Seals diving to the ocean floor to end the Jihadi threat to the US and a speech by Barak Obama. There is also tons of humor on just about every page as well as some romance not on every	page but good stuff none the less. Overall it is a great adventure ride till the last page of the book so enjoy I know I did writing it.
