The Globus Toolkit is a key technology in Grid Computing, the exciting new computing paradigm that

allows users to share processing power, data, storage, and other computing resources across institutional and geographic boundaries. Globus Toolkit 4: Programming Java Services provides an introduction to the latest version of this widely acclaimed toolkit. Based on the popular web-based

The Globus Toolkit 4 Programmer's Tutorial, this book far surpasses that document, providing greater detail, quick reference appendices, and many additional examples. If you ' re making the leap into Grid Computing using the Globus Toolkit, you ' ll want Globus

Toolkit 4: Programming Java Services at your side as you take your first steps. Written for newcomers to Globus Toolkit, but filled with useful information for experienced users. Clearly situates Globus application development within the context of Web Services and evolving Grid standards. Provides detailed coverage of Web Services programming with the Globus Toolkit's Java WS Core component. Covers basic aspects of developing secure services using the Grid Security Infrastructure (GSI). Uses simple, didactic examples

throughout the book, but also includes a more elaborate example, the FileBuy application, that showcases common design patterns found in Globus applications. Concludes with useful reference appendices. Hunting in the Yellowstone Amer Radio Relay League From the author of The Real History Behind the Templars--the origins and stories behind end-of-the-world predictions throughout history, from Revelations to 2012. In

entertaining and sharp prose, historian Sharan Newman explores theories of world destruction from ancient times up to the present day- theories which reveal as much about human nature as they do about the predominant historical, scientific, and religious beliefs of the time. Readers will find answers to the following end-of-times questions: ?Did the Mayans really say the world will end in December 2012? ?How have the signs in the New

Testament Book of Revelations been interpreted over the years? How did ancient Egyptians, Norse, and Chinese think the world would end? When did Nostradamus predict that the last days would come? Does the I Ching reference 2012? Why didn't the world end in Y2K? Are meteors, global warming, super-volcanoes, and the threat of nuclear war signs that the end is near? *Hollow-State Design 2nd Edition* Intelligence Trade

Discover (or rediscover) the fun and magic of building electronic circuits with thermatrons (vacuum tubes). This book has everything you need to know about the art and science of thermatron design and construction. It pulls together, in one easy to read book, thermatron

types and characteristics, homebrew techniques, and how to design audio and RF triode and pentode circuits. The book is written primarily for radio amateurs (or audio equipment builders) that already understands basic electronics but have forgotten or never had the pleasure of working with hollow-state thermatron devices. The Second Edition includes over 50+ pages of new and revised material including a new chapter on thermatron oscillator design. Comprehensive Manual of Abhidhamma Elsevier Examines guided reading, giving techniques for assessing students, organizing flexible groups, planning lessons, matching students to texts, and keeping the rest of the class working while the teacher meets with small groups. The Packet Radio Handbook BPS Pariyatti Editions From 1840 through the early 1900s, many Kirkup family members left the Border areas of Scotland and England to begin new lives in Canada, the United States

and Australia. They were farmers, miners, blacksmiths and ironworkers, husbands and wives with their children, or alone in a new world. Many were successful, and have large families of descendants around the world. Most never saw their families again. In an attempt to connect the travelling families back to their

origins, and those they left behind, this book contains some of the Kirkup stories; who they were, where they went, and how they lived.
