Tab S6, they have proven their mettle. It released the tablet to
the market recently and we can't stop talking about the

This is one key feature about this device. It took partnerships
with Century Fox and Panasonic to pull this off. The HDR,
otherwise known as the High Dynamic Range is a video
technology that optimizes one of the best displays in mobile
devices. Its brightness, contrast and color level & accuracy are
simply amazing. This Tablet is powered by Qualcomm's
Snapdragon 8555 Mobile Platform. With two variants that
supports 6GB of RAM & 128GB of internal Storage and 8GB of

The first of its kind in the market. This Tablet has been designed to meet your entertainment needs. It is really a full film studio on its own. Now, you can enjoy quality videos and actually create one yourself. A 13MP rear camera with ultra-wide angles and a smart AI would see to that. High-powered entertainment needs high storage. The Samsung Galaxy Tab doesn't fail in this regard. Here, we have a Laptop Storage capacity in a tablet frame. The processing power won't fail you either. A lag-free tab this is. We won't fail to mention its monster battery. A 7040mAh battery means there's actually no need to worry about your device tripping OFF on you. It simply can't. With Bixby, everything's smart. Your tab has become a one-stop-shop for controlling your appliances even when you're far from home. Samsung's done a nice job here, and for us, it is a pat on the back, from us to them.
