Thought leader, visionary, philanthropist, mystic, and yogi Sadhguru presents Western readers with a time-tested path to achieving absolute well-being: the classical science of yoga. “ A loving invitation to live our best lives and a profound reassurance of why and how we can. ” —Sir Ken Robinson, author of The Element, Finding Your Element, and Out of

Our Minds: Learning to Be Creative NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY SPIRITUALITY & HEALTH The practice of hatha yoga, as we commonly know it, is but one of eight branches of the body of knowledge that is yoga. In fact, yoga is a sophisticated system of self-empowerment that is capable of harnessing and activating inner energies in such a way that your body and mind function at their optimal capacity. It is a means to create inner situations exactly the way you want them, turning you into the architect of your own joy. A yogi lives life in this expansive state, and in this transformative book Sadhguru tells the story of his own awakening, from a boy with an unusual affinity for the natural world to a young daredevil who crossed the Indian continent on his motorcycle. He

relates the moment of his enlightenment on a mountaintop in southern India, where time stood still and he emerged radically changed. Today, as the founder of Isha, an organization devoted to humanitarian causes, he lights the path for millions. The term guru, he notes, means “dispeller of darkness, someone who opens the door for you. . . . As a guru, I have no doctrine to teach, no philosophy to impart, no belief to propagate. And that is because the only solution for all the ills that plague humanity is self-transformation. Self-transformation means that nothing of the old remains. It is a dimensional shift in the way you perceive and experience life.” The wisdom distilled in this accessible, profound, and engaging book offers readers time-tested tools that are fresh, alive, and radiantly new. Inner Engineering presents a revolutionary way of thinking about our agency and our humanity and the opportunity to achieve nothing less than a life of joy.

#1 NEW YORK TIMES BESTSELLER Twin boys grow up in the same family, in the same town. Dramatically different, they become bitter

enemies, even as children. One good, one bad. One leaves his peaceful hometown, but when all else fails, the prodigal son returns, twenty years later. The reunion of brothers, sweet and healing at first, exposes shattering revelations of good and evil. #1 New York Times bestselling author Danielle Steel tells a brilliant, suspenseful story of suspicion, betrayal, and a life-and-death struggle for survival. Which twin is good and which is evil, as the tables turn again and again? **PRODIGAL SON** In a matter of days, Peter McDowell loses everything he has worked so hard for—his wealth, his property, his livelihood as a star investment banker. And then it gets worse. The stock market crash not only plunges Peter into joblessness, it causes a rift in his marriage that he cannot repair. Stripped of everything, he has only one place to retreat: a lakeside cottage he inherited from his parents, who left most of their modest estate to Peter’s twin. With no other choice, the prodigal son goes home. A beloved small-town doctor, a devoted family man, and a pillar of his community, Michael McDowell serves others without regard to personal gain. Only Peter knows how Michael manipulated their parents when the boys were young, ultimately driving Peter away. At first, he dreads seeing Michael again. But, to his surprise, their reunion is tender and real. Only later, as Peter mulls over his late mother’s journals, does the truth begin to emerge, as realization and panic begin to set in. Who is his twin? Is the façade real, or does something terrifying lie beneath? Imagination or a reality too terrifying to believe? In a race for time,

Peter throws caution to the winds to find the truth. What he discovers will change their lives forever, the lives of their children, and an entire town. Powerful, poignant, and filled with complex and layered characters, *Prodigal Son* is a riveting novel of secrets, salvation, and redemption from master storyteller Danielle Steel. Praise for *Prodigal Son* “Fraternal twins raised together [turn] out to be very different and very much in conflict. One twin leaves home, but when this prodigal son returns, is he the evil twin, or is his brother? Steel yourself.”—Library Journal “Readers should be prepared for revelations of wickedness on a vast scale.”—Publishers Weekly

How has the concept of wild nature changed over the millennia? And what have been the environmental consequences? In this broad-ranging book Max Oelschlaeger argues that the

idea of wilderness has reflected the evolving character of human existence from Paleolithic times to the present day. An intellectual history, it draws together evidence from philosophy, anthropology, theology, literature, ecology, cultural geography, and archaeology to provide a new scientifically and philosophically informed understanding of humankind's relationship to nature. Oelschlaeger begins by examining the culture of prehistoric hunter-gatherers, whose totems symbolized the idea of organic unity between humankind and wild nature, and idea that the author believes is essential to any attempt to define human potential. He next traces how the transformation of these hunter-gatherers into farmers led to a new awareness of distinctions between humankind and nature, and how Hellenism and Judeo-Christianity later introduced the unprecedented concept that nature was valueless until humanized. Oelschlaeger discusses the concept of wilderness in relation to the rise of classical science and modernism, and shows that opposition to "modernism" arose almost immediately from scientific, literary, and philosophical communities. He provides new and, in some cases, revisionist studies of the seminal American figures Thoreau, Muir, and Leopold, and he gives fresh readings of America's two prodigious wilderness poets Robinson Jeffers and Gary Snyder. He concludes with a searching look at the relationship of evolutionary thought to our postmodern effort to reconceptualize ourselves as civilized beings who remain, in some ways, natural

animals.

On the eve of Sarah Whitfield's 75th birthday, she stands at the window of her chateau in France, waiting for her family to join her. Her memories take her back to the 1930s in New York, to her early marriage and subsequent shameful divorce. She is persuaded by her parents to join them on a trip abroad in the growing turmoil of pre-war Europe. There she meets Wiliam, Duke of Whitfield. Older than Sarah, and fourteenth in line to the British throne, he sparks her intellectual curiosity and makes her laugh. They make their home in a beautiful crumbling French chateau until they are parted by the war. Afterwards they are able to return to the chateau and establish the jewel collection which leads to the House of Whitfield, jewellers to the

crowned heads of all Europe. Together they produce a family of four, each of whom is drawn into the family business. **JEWELS** is the story of a great house of gems, a rare family, and an extraordinary marriage. Once again, Danielle Steel explores the lives of people facing challenges we recognise as our own, against the backdrop of war, passion and international intrigue.

Discover the astonishing world of reptiles and amphibians in a new book by photographer Matthijs Kuijpers Award-winning Dutch nature photographer Matthijs Kuijpers (born 1973) specializes in herpetofauna: reptiles and amphibians. From the depths of the world's jungles to its driest deserts, Kuijpers has spent 27 years pursuing reptiles and amphibians around the globe. He has photographed 1,500 cold-blooded species (and counting), some of which are exceedingly

rare. Kuijpers shoots in astonishing close-up detail, seeking to spotlight the essence of each animal--"no distractions, no environment," as he puts it. Featuring his subjects against a plain black backdrop, Kuijpers brings out their extraordinary colors and textures, even seeming to capture the personality of creatures like the mossy frog, the smooth helmeted iguana and the plumed basilisk. Matthijs Kuijpers: Cold Instinct, the photographer's first book, is a gorgeously produced collection of some of the most peculiar species that have ever crawled or slithered on the earth.

Charles Bernstein has described conceptual "poetry pregnant with thought." Against Expression, the premier anthology of conceptual writing, presents work that is by turns thoughtful, funny, provocative, and disturbing. Editors Craig Dworkin and Kenneth Goldsmith chart the trajectory of the conceptual aesthetic from early precursors such as Samuel Beckett and Marcel Duchamp through major avant-garde groups of the past century, including Dada, Oulipo, Fluxus, and language poetry, to name just a few. The works of more than a hundred writers from Aasprong to Zykov demonstrate a remarkable variety of new ways of thinking about the nature of texts, information, and art, using found, appropriated, and randomly generated texts to explore the possibilities of non-expressive language.

Winner of the International Lannan Literary

Award for Nonfiction *Animal tracks*, word magic, the speech of stones, the power of letters, and the taste of the wind all figure prominently in this intellectual tour de force that returns us to our senses and to the sensuous terrain that sustains us. This major work of ecological philosophy startles the senses out of habitual ways of perception. For a thousand generations, human beings viewed themselves as part of the wider community of nature, and they carried on active relationships not only with other people with other animals, plants, and natural objects (including mountains, rivers, winds, and weather patterns) that we have only lately come to think of as "inanimate." How, then, did humans come to sever their ancient reciprocity with the natural world? What will it take for us to recover a sustaining relation with the breathing earth? In *The Spell of the Sensuous* David Abram draws on sources as diverse as the philosophy of Merleau-Ponty, Balinese shamanism, Apache storytelling, and his own experience as an accomplished sleight-of-hand of magician to reveal the subtle dependence of human cognition on the natural environment. He explores the character of perception and excavates the sensual foundations of language, which--even at its most abstract--echoes the calls and cries of the earth. On every page of this lyrical work, Abram weaves his arguments with a passion, a precision, and an intellectual daring that recall such writers as Loren Eiseley, Annie Dillard, and Barry Lopez.
