Have you ever wondered: What it's like to daily bet hundreds of thousands of dollars working for some of the largest professional gamblers in Las Vegas? ... How to spend a summer house sitting one of the biggest stars in the world's 11,000 square-foot mansion - without an invitation from it's celebrity owner ... Whether the life of crime - specifically, running a shoplifting ring in a middle American mall - pays? ... What causes a son to finally say enough is enough ... and decide "Today is the day I am going to kill my dad." Comedian Brandt Tobler has the answers in this funny, touching and sometimes downright unbelievable memoir of a small town Wyoming-kid turned "mall-fia" don, turned nationally touring comic. Brandt tells his life story with candor, detailing the many pit stops, wrong turns, crazy connections and lucky breaks he experienced along the way to his comedy career, all while trying to balance a toxic relationship with his unreliable jailbird dad. In these pages Brandt will make you laugh (he better - it's his job!) and believe as he does that, when it comes to defining family, blood isn't always thicker than water. -- back cover.

The U.S. Public Land Survey System (USPLSS) was born in 1785 and has been evolving ever since. The General Land Office (GLO) and, later, the Bureau of Land Management's (BLM) system of laying out our sections, townships and ranges has been refined, changed, modified, improved, and, of course, has benefited from improvements in equipment and advances in technology. There have been eight editions of USPLSS instructions published from 1785 - 2009 by either the GLO of the BLM. The results are regional differences in the USPLSS across our United States. From Ohio (where our System began with its initial field surveys) to Alaska (where surveying work continues). And, there are differences in the USPLSS from state to state as legislatures have enacted statutes pertaining to the System in their state, and each state's courts have interpreted the statutes, or, established a resurvey legal principle through case law. While the broad view of the USPLSS is similar, each state will have its own peculiarities, specific to only that state. Textbooks and reference manuals about the USPLSS in general and about generic resurvey procedures on the System are available. Textbooks or reference manuals about the USPLSS which are state-specific and cover the original GLO instructions, resurvey procedures and applicable state statutes and case law are not available. Until now...for Missouri. This book is a complete synthesis of the USPLSS for Missouri. Briefly, it contains: The early history of the System, from 1785 - 1815; The French and Spanish in Pre-America Missouri; The "shaping" of Missouri...its boundaries; Laying out the original GLO surveys; GLO protraction and platting; Missouri court decisions relative to the USPLSS; Historical review of Missouri statute law relative to the USPLSS (1814 to date); "Best practices" for reestablishing lost and restoring obliterated corners of the USPLSS; Example calculation problems applying coordinate geometry to lost corner reestablishment; Example GLO plats with notes. This comprehensive coverage of the USPLSS for Missouri will provide the surveying student, educator and practitioner (and those preparing for licensure as a Professional Surveyor in Missouri) with a single book that will fill the reference void that existed in the past. The book has seven chapters, three tables, twenty-eight figures, forty-eight protraction and example problems, eighty-nine example GLO plats, four appendices and a Glossary and "Further Reading" list.
