technologiques. On ne peut toutefois pas douter que leur « look » y contribue aussi (largement). Il n'est dès lors pas surprenant que nombre d'entreprises dans des secteurs et industries très variés consacrent d'importantes ressources et leur énergie créatrice à développer des produits au design unique, destiné à les distinguer de ceux de leurs concurrents. Comment le droit du design peut-il dès lors protéger cette créativité des produits et à quelles conditions

? Juger du pouvoir d'attraction de la forme d'un produit n'est pas tâche aisée. C'est en somme tenter de faire écho sur le plan légal à la phrase du célèbre designer Milton Glaser : « There are three responses to a piece of design : yes, no and ... WOW. WOW is the one to aim for ». Pour explorer le domaine évolutif du droit du design, les auteurs des remarquables contributions qui composent ce livre se sont penchés sur diverses facettes de la thématique en droit

international et national. Qu'ils soient chaleureusement remerciés pour leur précieux travail et que M. Pierre Heuzé qui s'est chargé des tâches d'édition du livre trouve ici aussi l'expression de ma vive reconnaissance.
