HUGO AWARD FINALIST • ONE OF THE YEAR'S BEST BOOKS: Bill Gates, GatesNotes, New York Public Library, Parade, Newsweek, Polygon, Shelf Awareness, She Reads, Kirkus Reviews, Library Journal • "An epic story of redemption, discovery and cool speculative sci-fi."—USA Today "If you loved *The Martian*, you'll go crazy for Weir's latest."—The Washington Post Ryland Grace is the sole survivor on a desperate, last-chance mission—and if he fails, humanity and the earth itself will perish. Except that right now, he doesn't know that. He can't even remember his own name, let alone the nature of his assignment or how to complete it. All he knows is that he's been asleep for a very, very long time. And he's just been awakened to find himself millions of miles from home, with nothing but two corpses for company. His crewmates dead, his memories fuzzily returning, Ryland realizes that an impossible task now confronts him. Hurling through space on this tiny ship, it's up to him to puzzle out an impossible scientific mystery—and conquer an extinction-level threat to our species. And with the clock ticking down and the nearest human being light-years away, he's got to do it all alone. Or does he? An irresistible interstellar adventure as only Andy Weir could deliver, *Project Hail Mary* is a tale of discovery, speculation, and survival to rival *The Martian*—while taking us to places it never dreamed of going.

From the New York Times and internationally bestselling authors of the *Illuminae Files* comes a new science-fiction epic. . . . The year is 2380, and the graduating cadets of Aurora Academy are being assigned their first missions. Star pupil Tyler Jones is ready to recruit the squad of his dreams, but his own boneheaded heroism sees him stuck with the dregs nobody else in the academy would touch. . . . A cocky diplomat with a black belt in sarcasm A sociopath scientist with a fondness for shooting her bunkmates A smart-ass tech whiz with the galaxy's biggest chip on his shoulder An alien warrior with anger-management issues A tomboy pilot who's totally not into him, in case you were wondering And Ty's squad isn't even his biggest problem—that'd be Aurora Jie-Lin O'Malley, the girl he's just rescued from interdimensional space. Trapped in cryo-sleep for two centuries, Auri is a girl out of time and out of her depth. But she could be the catalyst that starts a war millions of years in the making, and Tyler's squad of losers, discipline cases, and misfits might just be the last hope for the entire galaxy. **NOBODY PANIC.**

Patricia Highsmith's *The Price of Salt* is now a major motion picture (Carol) starring Cate Blanchett and Mia Wasikowska, directed by Todd Hayes A 2010 New York Times Notable Book A 2010 Lambda Literary Award Winner A 2009 Edgar Award Nominee A 2009 Agatha Award Nominee A Publishers Weekly Pick of the Week Patricia Highsmith, one of the great writers of twentieth-century American fiction, had a life as darkly compelling as that of her favorite "hero-criminal," the talented Tom Ripley. Joan Schenkar maps out this richly bizarre life from her birth in Texas to Hitchcock's filming of her first novel, *Strangers on a Train*, to her long, strange self-exile in Europe. We see her as a secret writer for the comics, a brilliant creator of disturbing fictions, and an erotic predator with dozens of women (and a few good men) on her love list. The Talented Miss Highsmith is the first literary biography with access to Highsmith's whole story: her closest friends, her oeuvre, her archives. It's a compulsive page-turner unlike any other, a book worthy of Highsmith herself.

Artists and writers examine the bombardment of information, misinformation, emotion, deception, and secrecy in online and offline life in the post-digital age. Every day we are bombarded by information, misinformation, emotion, deception, and secrecy in our online and offline lives. How does the never-ending flow of data affect our powers of perception and decision making? This richly illustrated and boldly designed collection of essays and artworks investigates visual culture in the post-digital age. The essays, by such leading cultural thinkers as Douglas Coupland and W. J. T. Mitchell, consider topics that range from the future of money to the role of art in a post-COVID-19 world; from mental health in the digital age to online grieving; and from the mediation of visual culture to the thickening of the digital sphere. Accompanying an ambitious exhibition conceived by the Sharjah Art Foundation and volume editor and curator Omar Kholeif, the book is a work of art and a labor of love, emulating the labyrinthine corridors of the exhibition itself. Created by a group of writers, artists, designers, photographers, and publishers, Art in the Age of Anxiety calls upon us to consider what our collective future will be and how humanity will adapt to it.
