Rose is a princess, a Cinder, and half-human. She is the last one born of her kind, and on her twenty-first birthday, she must enter the woods and travel to find her Prince, as her sisters did before her. "... And we will all dance at the Grand Ball," her sisters would always say. But the Human servants are keeping a secret that could prevent the Cinders from reaching their Happily Ever After....Hidden in Rose's dreams and vision are the answers of the past between Cinders and Humans, and she is quickly running out of time trying to solve their hidden messages. She knows the answer lies in her first clue--identifying an animal she has never seen before--that persistent

Developers who write programs for GNOME use the GNOME API. Working with the GNOME API is preferable because the program will conform to the standard GNOME program look and feel. It also allows the developer to use the GNOME specific libraries in the program, greatly simplifying the development process. The Official GNOME 2 Developer's Guide is the official GNOME Foundation guide to programming GUIs and applications using the GTK+ and GNOME API. Developed in partnership with the GNOME Foundation, this book is for programmers working with the GNOME 2 desktop environment. Each section begins with an example program that serves as a tutorial, then develops into a reference on the topic. Includes abundant, well-annotated examples. Knowledge of the C programming language is required, but no GUI programming experience is necessary.

The Linux Programming Interface (TLPI) is the definitive guide to the Linux and UNIX programming interface—the interface employed by nearly every application that runs on a Linux or UNIX system. In this authoritative work, Linux programming expert Michael Kerrisk provides detailed descriptions of the system calls and library functions that you need in order to master the craft of system programming, and accompanies his explanations with clear, complete example programs. You'll find descriptions of over 500 system calls and library functions, and more than 200 example programs, 88 tables, and 115 diagrams. You'll learn how to: –Read and write files efficiently –Use signals, clocks, and timers –Create processes and execute programs –Write secure programs –Write multithreaded programs using POSIX threads –Build and use shared libraries –Perform interprocess communication using pipes, message queues, shared memory, and semaphores –Write network

applications with the sockets API While The Linux Programming Interface covers a wealth of Linux-specific features, including epoll, inotify, and the /proc file system, its emphasis on UNIX standards (POSIX.1-2001/SUSv3 and POSIX.1-2008/SUSv4) makes it equally valuable to programmers working on other UNIX platforms. The Linux Programming Interface is the most comprehensive single-volume work on the Linux and UNIX programming interface, and a book that's destined to become a new classic.

Getting Started with QNX Neutrino 2 Grove Press

Guy Bourdin, who died in 1991, was a legend in the world of fashion photography. He was the most radical and audacious photographer of his generation but his reputation has been surrounded in secrecy - he rarely allowed his photographs to appear outside the pages of French Vogue. No book of his work

has previously been published. His estate was frozen by the courts until 1997, after which his son, Samuel, gained control of his work as a result of which this long-awaited book can be published.

Bourdin was originally a painter and a friend of Man Ray. His fashion photographs began to incorporate his surrealist influences.

Fashion photography became an arena for his personal obsessions.

The results are as shocking and astonishing as any commercial photograph ever published. They were executed meticulously.

Despite his intense eroticism, subversion and, as Cecil Beaton described, 'his grotesque little gamines', Beaton referred to him in 1975 as 'unquestionably the most interesting fashion photographer in Paris today'. His work was said to have represented 'the look of an era -glamorous, hard-edged, cleverly spiced with vulgarity..

.rich with implied narratives and strong erotic undercurrents'
