In the last few years, digital SLR cameras have taken the astrophotography world by storm. It is now easier to photograph the stars than ever before! They are compact and portable, flexible to adapt with different lenses and for telescope use, and above all DSLR cameras are easy and enjoyable to use. In this concise guide, experienced astrophotography expert Michael Covington outlines the simple, enduring basics that will enable you to get started, and help you get the most from your equipment. He covers a wide selection of equipment, simple and advanced projects, technical considerations and image processing techniques. Unlike other astrophotography books, this one focuses specifically on DSLR cameras, not astronomical CCDs, non-DSLR digital cameras, or film. This guide is ideal for astrophotographers who wish to develop their skills using DSLR cameras and as a friendly introduction to amateur astronomers or photographers curious about photographing the night sky.

The New Covenant is full of God's grace. In order to enjoy such grace each one who belongs to the Lord must know what this New Covenant is. How sad that many of the Lord's people today neither appreciate nor understand this New Covenant. For this reason we have a burden to release some messages on the New Covenant. Even so, the New Covenant is such a comprehensive subject that we cannot exhaust its richness with our limited learning, experience and words. Still, we look to God's grace and are willing to share with His children the little we have received. Our earnest prayer is that God would enable us to know something of the New Covenant and lead us into its spiritual reality.
