Now with a new introduction for the Tor Essentials line, A Fire Upon the Deep is sure to bring a new generation of SF fans to Vinge's award-winning works. A Hugo Award-winning Novel! " Vinge is one of the best visionary writers of SF today." -David Brin Thousands of years in the future, humanity is no longer alone in a universe where a mind's potential is determined by its location in space, from superintelligent entities in the Transcend, to the limited minds of the Unthinking Depths, where only simple creatures, and technology, can function. Nobody knows what strange force partitioned space into these "regions of thought," but when the warring Straumli realm use an ancient Transcendent artifact as a weapon, they unwittingly unleash an awesome power that destroys thousands of worlds and enslaves all natural and artificial intelligence. Fleeing this galactic threat, Ravna crash lands on a strange world with a ship-hold full of cryogenically frozen children, the only survivors from a destroyed space-lab. They are taken captive by the Tines, an alien race with a harsh medieval culture, and used as pawns in a ruthless power struggle. In Mariah Fredericks's Death of a Showman, the fourth in this absorbing series set in Gilded Age New York, lady's maid Jane Prescott is thrust into the world of show business, where a killer is stalking Broadway. "A lively upstairs/downstairs mystery."—New York Times Book Review on A Death of No Importance It is the summer of 1914 and lady's maid Jane Prescott is back in New York with the Tylers after a glittering society wedding in Europe. On their return, Jane learns another wedding has taken place. Her old dancing partner, Leo Hirschfeld, has married a chorus girl in his new Broadway musical. Jane and Louise Tyler are pulled into the sparkling and scandalous world of Broadway, as a star struck Louise invests in Leo's show, and Jane chaperones her at rehearsals. But behind the glittering facade of the theater, there are rivalries, secret romances, and some very dodgy business practices. When the show's abusive producer, Sidney Warburton, is murdered, the list of suspects is long. Was it the comedic star or her gambler boyfriend? The disgruntled costume designer? The beautiful, blond dancer, her jealous husband? Or was it Leo himself, who had more reason than anyone to hate Sidney Warburton? As the First World war looms in the distance, Jane and tabloid reporter Michael Behan must strip back the masks of these consummate performers before one of them kills again.
