One of Time Out's “LGBTQ+ books for kids to read during Pride Month,” this groundbreaking, pop-culture-infused illustrated biography collection takes readers on an eye-opening journey through the lives of fifty influential queer figures who have made a mark on every century of human existence. Rainbow Revolutionaries brings to life the vibrant histories of fifty pioneering LGBTQ+ people from around the world. Through Sarah Prager’s (Queer, There, and Everywhere) short, engaging bios, and Sarah Papworth’s bold, dynamic art, readers can delve into the lives of Wen of Han, a Chinese emperor who loved his boyfriend as much as his people, Martine Rothblatt, a trans woman who’s helping engineer the robots of tomorrow, and so many more! This book is a celebration of the many ways these heroes have made a difference and will inspire young readers to make a difference, too. Featuring an introduction, map, timeline, and glossary, this must-have biography collection is the perfect read during Pride month and all year round. Biographies include: Adam Rippon, Alan L. Hart, Alan Turing, Albert Cashier, Alberto Santos-Dumont, Alexander the Great, Al-Hakam II, Alvin Ailey, Bayard Rustin, Benjamin Banneker, Billie Jean King, Chevalière d'Éon, Christina of Sweden, Christine Jorgensen, Cleve

Jones, Ellen DeGeneres, Francisco Manicongo, Frida Kahlo, Frieda Belinfante, Georgina Beyer, Gilbert Baker, Glenn Burke, Greta Garbo, Harvey Milk, James Baldwin, Jóhanna Sigurðardóttir, José Sarria, Josephine Baker, Juana Inés de la Cruz, Julie d'Aubigny, Lili Elbe, Ma Rainey, Magnus Hirschfeld, Manvendra Singh Gohil, Marsha P. Johnson, Martine Rothblatt, Maryam Khatoon Molkara, Natalie Clifford Barney, Navtej Johar, Nzinga, Pauli Murray, Renée Richards, Rudolf Nureyev, Sally Ride, Simon Nkoli, Stormé DeLarverie, Sylvia Rivera, Tshepo Ricki Kgositau, Wen of Han, We’wha *A Junior Library Guild Selection*

Guy Bourdin, who died in 1991, was a legend in the world of fashion photography. He was the most radical and audacious photographer of his generation but his reputation has been surrounded in secrecy - he rarely allowed his photographs to appear outside the pages of French Vogue. No book of his work has previously been published. His estate was frozen by the courts until 1997, after which his son, Samuel, gained control of his work as a result of which this long-awaited book can be published. Bourdin was originally a painter and a friend of Man Ray. His fashion photographs began to incorporate his surrealist influences. Fashion photography became an arena for his personal obsessions. The results are as shocking and astonishing as any commercial photograph ever published. They were executed meticulously. Despite his intense eroticism, subversion and, as Cecil Beaton described, 'his grotesque little gamines', Beaton referred to him in 1975 as 'unquestionably the most interesting fashion photographer in Paris today'. His work was said to have represented 'the look of an era -glamorous, hard-edged, cleverly spiced with vulgarity.. .rich with implied narratives and strong erotic undercurrents'

"Selling Today: Creating Customer Value, one of the most popular sales information books on the market, offers readers a blend of time-proven fundamentals and new practices needed to succeed in today's information economy. It emphasizes the need for salespeople to be guided by the new principle of personal selling: establishing partnerships that are maintained by customer value, created by the salesperson. This edition stresses the need for sales professionals to cope with new forces shaping the world of sales and marketing, and emphasizes the strategies for long-term success. It provides comprehensive coverage of consultative selling, strategic selling, partnering, and value-added selling. Sales force automation is also a major theme. For sales and marketing professionals."--Product description.

This is a reproduction of the original artefact. Generally these books are created from careful scans of the original. This allows us to preserve the book accurately and present it in the way the author intended. Since the original versions are generally quite old, there may occasionally be certain imperfections within these reproductions. We're happy to make these classics available again for future generations to enjoy!

Merchants of Death Wm. B. Eerdmans Publishing

""The report is essential reading for policy makers, government workers, and academics pursuing the goal of equitable, sustainable development across the world."" - N. R. Narayana Murthy, Chairman and Chief Mentor Infosys Technologies Ltd. Information and communication technology (ICT) is rapidly evolving, changing rich and poor societies alike. It has become a powerful tool for participating in the global economy and for offering new opportunities for development efforts. ICT can and should advance economic growth and reduce poverty in

developing countries. It has been 20 years since the first telephone operator was privatized, a little over 10 since the World Wide Web emerged, and 5 since the telecommunications bubble burst. How have the ICT sector and its role in development evolved? What have we learned? How can we move forward? Information and Communications for Development 2006: Global Trends and Policies contains lessons from both developed and developing countries. It examines the roles of the public and private sectors, identifying the challenges and the benefits of adopting and expanding ICT use. The report assesses topics essential to building an information society, including investment, access, diffusion, and country policies and strategies. Assessing what has worked, what hasn't, and why, this report is an invaluable guide for understanding how to capture the benefits of ICT around the world."

The Higher Arithmetic Penguin

This book is a most exciting and unusual study of cultural history. The idea of the pregnant man, redolent of bawdy jokes and sexual fantasy, has inspired European literature and folklore since ancient times. Traces of the theme, both comical and disturbing, are found not only in the wealth of tales from Italy, France, Germany, Russia, Finland and other European Countries, but also in the Hebrew and Islamic traditions.

12 January 2010 Abela Publishing Ltd

Extensible processing is an iterative approach to archival processing that involves creating a baseline level of access to all holdings in an archival repository, then conducting additional processing based on user demand and further assessment of collections. Santamaria introduces strategies to allow for both the elimination of backlogs of collections materials already in the possession of archives, and the development of procedures to avoid the accumulation of backlogs in the first place.

Marcus at Home Penguin Books

The theory of numbers is generally considered to be the 'purest' branch of pure mathematics and demands exactness of thought and exposition from its devotees. It is also one of the most highly active and engaging areas of mathematics. Now into its eighth edition The Higher Arithmetic introduces the concepts and theorems of number theory in a way that does not require the reader to have an in-depth knowledge of the theory of numbers but also touches upon matters of deep mathematical significance. Since earlier editions, additional material written by J. H. Davenport has been added, on topics such as Wiles' proof of Fermat's Last Theorem, computers and number theory, and primality testing. Written to be accessible to the general reader, with only high school mathematics as prerequisite, this classic book is also ideal for undergraduate courses on number theory, and covers all the necessary material clearly and succinctly.

Dot Grid Journal Notebook Cambridge University Press

Little Ida liked the student, who always had a tale to tell, a lot. So, one morning, when little Ida's flowers had all withered, she asked the student what could have happened to them. Hans Christian Andersen (1805-1875) was a Danish author, poet and artist. Celebrated for children's literature, his most cherished fairy tales include "The Emperor's New Clothes", "The Little Mermaid", "The Nightingale", "The Steadfast Tin Soldier", "The Snow Queen", "The Ugly Duckling" and "The Little Match Girl". His books have been translated into every living language, and today there is no child or adult that has not met Andersen's whimsical characters. His fairy tales have been adapted to stage and screen countless times, most notably by Disney with the animated films "The Little Mermaid" in 1989 and "Frozen", which is loosely based on "The Snow Queen", in 2013. Thanks to Andersen's contribution to children's literature, his birth date, April 2, is celebrated as International Children's Book Day.

Extensible Processing for Archives and Special Collections Lindhardt og Ringhof

In *A Bigger Picture*, the bestselling political memoir of 2020, Malcolm Turnbull, Australia's 29th prime minister, tells the remarkable story of his life. Now in paperback, this edition is updated with an all-new foreword by the author that sheds light on the huge political and cultural changes happening today. When Malcolm Turnbull took over the nation's top job there was a sense of excitement in Australia. Sky-high opinion polls followed as the political outsider with a successful business, legal and media career took charge. The infighting that had dogged politics for the best part of a decade looked to be over. But a right-wing insurgency brutally cut down Turnbull's time in office after three years, leaving many Australians asking, 'Why?' Exceptionally candid and compelling, *A Bigger Picture* is the definitive narrative of Malcolm Turnbull's prime ministership. He describes how he legalised same-sex marriage, established Snowy Hydro 2.0, stood up to Donald Trump, and many more achievements – remarkable in their pace and significance, and delivered in the teeth of so much opposition. But it's far more than just politics. Turnbull's life has been filled with colourful characters and controversies, success and failure. From his early years in Sydney, growing up with a single father, to defending 'Spycatcher' Peter Wright against the UK government; the years representing Kerry Packer, leading the Republican Movement and making millions in business; and finally toppling Tony Abbott to become prime minister of Australia. For the first time he tells it all – in his own words. With revelatory insights on the workings of Canberra and the contentious events of Turnbull's life, *A Bigger Picture* explores the strengths and vulnerabilities of one of Australia's best-known and most dynamic business and political leaders. Lyrically written in highly readable and entertaining prose, this is a genuine page-turner that's not just for political junkies.
