contribution to the literature, capturing the growing interest in place promotion, and offers in-depth insights on the role of events. With a focus on urban locations, this book defines the scope and concept of place event marketing. It demonstrates that different kinds of events, for leisure and business, can be used to successfully develop, promote and brand different types of places. Individual chapters written by a variety of leading academics explore how various public and non-governmental institutions that deal with promotion and marketing communications of places can implement event marketing activities and how such institutions organize, co-organize

and sponsor different events. The effects of event marketing activities on urban place promotion and branding are thoroughly explored through a variety of international empirical case studies. This will be of great interest to upper-level students and researchers in events marketing and management, tourism and the broader field of urban geography. The concluding chapter also proposes future research directions.

defoaming, a vast amount of new work has been published and many new insights have been revealed. A cohesive, single-authored book, *The Science of Defoaming: Theory, Experiment and Applications* provides comprehensive coverage of the topic. It describes the mode of action of antifoams, presenting the relevant theory and the supporting experimental evidence. Beginning with an introductory chapter that discusses the intrinsic

---

properties of foam, the book then describes experimental methods for measuring foam properties important for studying antifoam action and techniques used in establishing the mode of action of antifoams. Since most commercially effective antifoams are oil based, a chapter is devoted to the entry and spreading behavior of oils and the role of thin film forces in determining that behavior. The book reviews the mode of action of antifoams, including theories of antifoam mechanisms and the role of bridging foam films by particles and oil drops. It also addresses issues related to the effect of antifoam concentration on foam formation by air entrainment and the process of deactivation of mixed oil-particle antifoams during dispersal and foam generation. For applications where chemical antifoam use is unacceptable, the text examines mechanical means of defoaming, such as the use of rotary devices and ultrasound. The final chapters consider the application of defoaming in radically different contexts including waterborne latex paints and varnishes, machine washing of textiles, gas-oil separation in crude oil production, and cardiopulmonary bypass surgery. Focusing on the basic science of defoaming, this book presents a balanced view, which also addresses the challenges that may

---

arise for these specific defoaming applications.

“ More people recognize the importance of Allyship—and that ’ s great. Unfortunately, many men still don ’ t know what they need to do to effect change so everyone feels valued and empowered at work. In Showing Up, Ray Arata provides clear guidance on how to turn good intentions into action. I strongly recommend it to everyone interested in helping create a more equal and productive workplace. ”

—Sheryl Sandberg, COO of Facebook and founder of LeanIn.Org and OptionB.Org Showing Up is a revolutionary step-by-step guide—by and for

men—to end toxic masculinity and enact heart-based leadership, increase diversity, bolster the bottom line, and create a workplace culture where everyone wins. The Time's Up, Me Too, and Black Lives Matter movements have sounded a wake-up—especially for men. Organizations worldwide now realize the critical importance of diversity, equity, and inclusion (DEI) for underrepresented people. It ’ s abundantly clear: the default model of masculinity isn ’ t working for anyone. But for a new and healthier infrastructure, for permanent and transformational shifts, we need a plan that includes men. In Showing Up, Ray Arata details the proven methods he's shared with such companies as

---

Verizon, Bloomberg, Moody's, Intel, Toyota, Hearst, and more, teaching men to

- Embrace healthy masculinity as a cornerstone of inclusionary leadership;
- Identify unhealthy masculine behaviors in the workplace—like mansplaining, maninterrupting, and monopolizing;
- Adopt behavior modifications aligned with being an inclusive leader and ally;
- Incorporate specific language to use in healthy discussions; and
- Leverage power and position to elevate underrepresented groups.

When in 2013 he first published a report on the active presence of Al-Qaeda in South Africa, all hell broke loose for investigative reporter De Wet Potgieter. He was forced to retract before a second, substantiating article could be published. Then the massacre at Westgate Mall hit Nairobi, which made the involvement of the so-called White Widow - operating on a legitimate but illegally acquired South African passport - front-page news. Suddenly the world's media was beating a path to Potgieter's door. Now, for the first time, he tells the full unsettling story of Al-Qaeda's presence in this country. Not only is the veil lifted from this mysterious British

woman, but the identity of another is disclosed: an Afrikaans-speaking counter-terrorist operative known as the Black Widow. The book shows how, taking advantage of corrupt state machinery, Al-Qaeda factions launch attacks in other countries. It discloses the location of a terrorist training camp in the Karoo and reveals disturbing details of the support they receive from various local extremist groups. Based on investigations spanning two years, Black Widow White Widow paints a frightening picture of the all too real possibility of future attacks from, or on, South African soil.

A glimpse into the lives of LGBTQ migrants in Johannesburg, in their own words Seeking Sanctuary brings together poignant life stories from fourteen lesbian, gay, bisexual and transgender (LGBT) migrants, refugees and asylum seekers living in Johannesburg, South Africa. The stories, diverse in scope, chronicle each narrator 's arduous journey to South Africa, and their corresponding movement towards self-love and self-acceptance. The narrators reveal their personal battles to reconcile their faith with their sexuality and gender identity, often in the face of violent persecution, and how they have

carved out spaces of hope and belonging in their new home country. In these intimate testimonies, the narrators ' resilience in the midst of uncertain futures reveal the myriad ways in which LGBT Africans push back against unjust and unequal systems. Seeking Sanctuary makes a critical intervention by showing the complex interplay between homophobia and xenophobia in South Africa, and of the state of sexual orientation and gender identity (SOGI) rights in Africa. By shedding light on the fraught connections between sexuality, faith and migration, this ground-breaking project also provides a model for religious communities who are working towards justice,
