Shakeup Nikki Hunt

Can you imagine what it would be like not to have any memory of your first ten years of life?

Jake Howard knows how that feels. He's a successful psychiatrist and writer. He has an apparently adoring lover and the respect of his peers. But he also has a huge gap where his childhood memories should be. What's more, Jake is tormented by the worst kind of nightmares. Nightmares he's not even sure are his.

Tormented by dreams and visions that threaten his sanity, he must find their source in order to understand and banish them.

His hunt will take him to a run-down seaside town, to the place where he was raised and also forty years back in time, to what he must confront to release himself from the grip of the visions and also to discover the hidden memories.

However, he will discover things about himself he did not dare imagine. Things he really didn't want to know.

And he will also discover that not everyone is what they appear to be. Those revelations will expose a darkness and horror that no one should have to confront.

Sometimes a lie is preferable.

Some truth is best left undiscovered...

Porting heads is an art and science. It takes a craftsman's touch to shape the surfaces of the head for the optimal flow characteristics and the best performance. Porting demands the right tools, skills, and application of knowledge. Few other engine builders have the same level of knowledge and skill porting engine heads as David Vizard. All the aspects of porting stock as well as aftermarket heads in aluminum and cast-iron constructions are covered. Vizard goes into great depth and detail on porting aftermarket heads. Starting with the basic techniques up to more advanced techniques, you are shown how to port iron and aluminum heads as well as benefits of hand and CNC porting. You are also shown how to build a high-quality flow bench at home so you can test your work and obtain professional results. Vizard shows how to optimize flow paths through the heads, past the valves, and into the combustion chamber. The book covers blending the bowls, a basic porting procedure, and also covers pocket porting, porting the intake runners, and many advanced procedures. These advanced procedures include unshrouding valves, porting a shortside turn from the floor of the port down toward the valve seat, and developing the ideal port area and angle. All of these changes combine to produce optimal flow velocity through the engine for maximum power.

Travis King is the worst kind of asshole. He taunts me for being a good girl and mocks my high standards. He's cruel, crass, and has enough confidence to last two lifetimes. And I hate him. It wouldn't matter so much if he were avoidable. But considering he's my older brother's best friend and roommate, I see him more than I'd ever want to. His sculpted abs and gorgeous eyes are wasted on such an arrogant man, which makes me hate him even more. Even though I've had a crush on him since I was ten, the feelings weren't mutual and he's always made that very clear. He's always loved getting under my skin and one night against my better judgment, I let him in my bed. I've succumbed to his manwhore ways, but that doesn't change a thing. Because the King is about to get played at his own game-and lose. Checkmate.
