Science & Business Media

He came to the Honey Garden looking for Cyrion. He was a man in grave danger, convinced only one man alive could help him. A man he had heard about in song and story. A man practically everyone knew something about. A

man he had never met. CYRION Some said he was the stolen son of a western king, raised by nomads in the desert. A freelance swordsman, a sorcerer, a master of disguise, some said he attracted bizarre, uncanny events as some persons attract misfortune. He with hair like the sky of earnest sunrise, his fair complexion, his whiplash reactions and quicksilver elegance was like a being from another world. A legend. A myth. But was he real? And was he for hire?

Cyrion Schwartz & Wade
This book is a comprehensive primer to both traditional and emerging E-Commerce technologies. Students with no prior technical knowledge will be able to grasp complex topics such as networking, Internet security, Web languages and other important subjects in a way that illustrates their use

through case studies and practice by completing Web projects.

Tsunami Girl Penguin UK

Discover (or rediscover) the fun and magic of building electronic circuits with thermatrons (vacuum tubes). This book has everything you need to know about the art and science of thermatron design and construction. It pulls together, in one easy to read book, thermatron types and characteristics, thermatron homebrew techniques, and how to design audio and RF triode and pentode circuits. The book is written primarily for radio amateurs (or audio equipment builders) that already understands basic electronics but have forgotten or never had the pleasure of working with hollow-state devices. The Second Edition

includes over 50+ pages of new and revised material including a new chapter on thermatron oscillator design.

Street Press

A manual for amateur radio enthusiasts discusses the history of packet radio, hardware systems, networking, setting up an amateur packet radio station, and equipment and accessories

Weird But True 9

Simon and Schuster

From the author of

One Day in the

Eucalyptus,

Eucalyptus Tree: Do you wanna? Wanna see?

Let's go find that gator, gator, gator!

COME WITH ME! Put on your life jacket, hop in the boat, and raise your

binoculars—it's time to go on an

adventure! In Daniel Bernstrom's follow-up

to the critically acclaimed One Day in

the Eucalyptus,

Eucalyptus Tree, a fearless little girl

takes off in search of a giant gator—but

she's not going into that swamp alone! No

way! She wants YOU,

the reader, to come along. Off you go, peering through the lush landscapes, looking for that gator! But each time you think you see it?

Oops! Just a fox. Or some ducks! Or a snake. Maybe you'll never find the gator, gator, gator . . .

With stunning illustrations from Sendak Fellow Frann Preston-Gannon, readers experience the feeling of being on a real adventure deep in the swamp. Rhyming, repeating, and exhilarating, the text is a delightful read-aloud romp that will entertain and make everyone's heart skip a beat!

Hepatology has come of age in the last decades. Biology of the liver has flourished long before. As the largest

homogeneous organ of the body the liver served as useful model in the development of biochemistry and related disciplines. Only gradually were these biological

investigations applied to the clinical study of liver disease. This was particularly

stimulated by the recognition that in the greater part of the world, the developing countries and what we now call the Third World, liver disease represents a major threat to overall public health. It leads to morbidity and mortality of persons in their productive years from liver cancer, cirrhosis and parasitic disease, particularly, schistosomiasis.

Moreover, the growing emphasis on the social impact of diseases focused on disorders of the liver because malnutrition, poverty, and drug addiction contribute greatly to their spread. This is compounded by the increase of alcohol abuse, recently on the rise even in the developing countries.

Concern with environmental pollution has also raised the interest in liver diseases, in part because the liver acts as a guardian against polluting chemicals and in part because it is considered, possibly to an exaggerated degree, a vulnerable target of such chemicals.

Whether it's the industrious ant, the breathtaking Monarch butterfly, or the multi-legged centipede, children will discover the fastest, strongest, and most harmful species in DK's Pocket Genius: Bugs. Profiling more than 200 insects and bugs, from beetles and butterflies to spiders and scorpions, find out what bugs eat, which are poisonous, which live the longest, and which can be found in your own backyard. Plus, learn about the products we get from bugs, such as honey, ink, silk, and jewelry, and how bugs and insects play important roles in our world. Catalog entries include facts provide at-a-glance information, while locator icons offer immediately recognizable references to aid navigation and

understanding, and fact files round off the book with fun facts such as record breakers and timelines. Each mini-encyclopedia is filled with facts on subjects ranging from animals to history, cars to dogs, and Earth to space and combines a child-friendly layout with engaging photography and bite-size chunks of text that will encourage and inform even the most reluctant readers.

Drop It, Rocket!

Lulu.com

Fifteen-year-old Yuki is struggling at school with her confidence, and goes to Japan to stay with her grandfather, a well-known manga artist and to whom she is very close. But during her visit, a calamitous event occurs - the East Coast Earthquake and Tsunami - and her beloved Grandpa is lost. Yuki and her friend Taka must make sense of the terrible situation and come to terms with the loss of

their life as they knew it - and see that through renewal and with resilience, they can emerge from this tragedy with optimism for the future.

Interwoven with Japanese folk tales, modern-day ghost stories, and the creation of her very own vibrant manga hero, Yuki finds the courage to overcome extraordinary odds, and take her first steps into the world that lies beyond catastrophe. Told through both prose and manga, this story for young adults will touch the heart of any reader.

and entertain. The diverse cast of talented contributors will not disappoint. Oakland Noir offers stories by Nick Petrulakis, Kim Addonizio, Keenan Norris, Keri Miki-Lani Schroeder, Katie Gilmartin, Dorothy Lazard, Harry Louis Williams II, Carolyn Alexander, Phil Canalin, Judy Juanita, Jamie DeWolf, Nayomi Munaweera, Mahmud Rahman, Tom McElravey, Joe Loya, and Eddie Muller. "From the Oakland hills to the heart of downtown, each story brings Oakland to life." —San Jose Mercury News "Oakland is a natural for the series, with its shadowy crimes and disgruntled cops." —Zoom Street Magazine "San Francisco's grittier next-door neighbor gets her day in the sun in 16 new stories in this tightly curated entry in Akashic's Noir series. The hardscrabble streets of Oakland offer crime aplenty . . . Thompson and Muller have taken such pains

to choose stories highlighting Oakland's diversity and history that the result is a volume rich in local culture as well as crime." —Kirkus Reviews Pocket Genius Bugs Gator, Gator, Gator! DADU DAYAL Bhakti Poet/Saint of India. Translation & Introduction Paul Smith. Dadu Dayal (1544-1603) was a Bhakti poet/saint from Ahmedabad, Gujarat, India. 'Dadu' means brother and 'Dayal' means 'the compassionate one'. He was found by an affluent businessman floating on the river Sabarmati. He later moved to Amer near Jaipur Rajasthan, where he gathered around himself a group of followers, forming a sect that became known as the Dadu-panth. Dadu's compositions were recorded by his disciple Rajjab and are known as the Dadu Anubhav Vani, a compilation of 5,000 couplets, many of them bhajans and dohas. Dadu spent the latter years of his life in Naraiana. Five ashrams are considered sacred by the followers: Naraiana, Bhairanaji,

Sambhar, Amer, and Karadala (Kalyanpura). He was born in 1544, and died in 1603. He made his living by sewing skins into bags for raising water from wells, until eventually he was initiated into the religious life by the sadhu Sundardas. Dadu had no book-learning but his natural genius and the vision gained by his devotion made him a lover of beauty and a poet. Here are over 85 of his wonderful, powerful bhajans & dohas in the correct rhyming form for the first time. Large Print (16pt) & Large Format (8" x 10") Edition. 128 pages. Paul Smith (b. 1945) is a poet, author and translator of many books of Sufi poets from the Persian, Arabic, Urdu, Turkish, Pashtu, Hindi and other languages including Hafiz, Sadi, Nizami, Rumi, 'Attar, Sana'i, Jahan Khatun, Obeyd Zakani, Mu'in, Amir Khusrau, Nesimi, Kabir, Anvari, Ansari, Jami, Khayyam, Rudaki, Lalla Ded, Mahsati, Baba Farid, Iqbal, Vrind, Rahim and others, and his own poetry, fiction, biographies, plays, children's *Lawyers in Hell* Que Publishing This work has been

The Lives of the Lord Chancellors and Keepers of the Great Seal of Ireland

HarperCollins

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985.

Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems.

Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series).

As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and O (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G.

<p>Herman and H.A. Maurer whose influence in the theory of L systems has been most significant. <i>Gator, Gator, Gator!</i> Lincoln Children's Books</p> <p>Sketchbook Just for You 8.5 x 11</p> <p>Sketchbook Just for You 8.5 x 11 is unlined blank journal for kids and users of various ages and gender who love to draw, sketch and paint, etc. Compatible with your favorite pens, pencils and other sketching/drawing tools.
