Medical Visualization and Applications of Technology John Wiley & Sons This book provides an understanding of innovation models and why they are important in the business context, and considers sources of innovation and how to apply business frameworks using real-world examples of innovation-led businesses. After providing a solid background to the key concepts related to innovation models, the book looks at why innovation takes place and where the sources of innovation lie, from corporate research to crowd-sourced and government-funded initiatives. Innovation models across manufacturing, services and government are explored, as well as measuring innovation, and the impact of design thinking and lean enterprise principles on innovation and sustainability-driven imperatives. Offering a truly comprehensive and global approach, Business Innovation should be core or recommended reading for advanced undergraduate, postgraduate, MBA and Executive Education students studying Innovation Management, Strategic Management and Entrepreneurship. **The Handbook of Mobile Market Research** John Wiley & Sons Take your apps from the small screen to the big screen and start developing for the Samsung SmartTV now! Samsung 's SmartTV platform gives developers the opportunity to bring the app experience to the world of home entertainment, creating a more interactive and engaging way to reach their audience. If you 're ready to expand your app development skills beyond the mobile environment, look no further than Samsung SmartTV Application Development. This unique guide shows you how to incorporate SmartTV features like Smart Interaction, gesture and voice recognition, and personalized recommendations into your app designs and take advantage of movie, video game, web, and other smart content available on the latest SmartTV offerings. Shows how to build a new SmartTV application -- from planning the app design to creating a compelling user interface, adding features, and taking the app to market Walks you through the development environment, key platform capabilities, the SmartTV toolset, and testing emulator Includes helpful source code examples to use as inspiration for your own app design and instruction on using video-on-demand, gaming, multi-screen, and Smart Interaction features in your app Written by a team of experts from Handstudio, a global smart media application and solution developer whose clients include Samsung, Humax, and LG, who share their real-world insights and experience developing for the Samsung SmartTV platform Make the smart move and get Samsung SmartTV Application Development today!

HWM Springer Nature Broad in scope, Semantic Multimedia Analysis and Processing provides a complete reference of techniques, algorithms, and solutions for the design and the implementation of contemporary multimedia systems. Offering a balanced, global look at the latest advances in semantic indexing, retrieval, analysis, and processing of multimedia, the book features the contributions of renowned researchers from around the world. Its contents are based on four fundamental thematic pillars: 1) information and content retrieval, 2) semantic knowledge exploitation paradigms, 3) multimedia personalization, and 4) human-computer affective multimedia interaction. Its 15 chapters cover key topics such as content creation, annotation and modeling for the semantic web, multimedia content understanding, and efficiency and scalability. Fostering a deeper understanding of a popular area of research, the text: Describes state-of-the-art schemes and applications Supplies authoritative guidance on research and deployment issues Presents novel methods and applications in an informative and reproducible way Contains numerous examples, illustrations, and tables summarizing results from quantitative studies Considers ongoing trends and designates future challenges

and research perspectives Includes bibliographic links for further exploration Uses both SI and US units Ideal for engineers and scientists specializing in the design of multimedia systems, software applications, and image/video analysis and processing technologies, Semantic Multimedia Analysis and Processing aids researchers, practitioners, and developers in finding innovative solutions to existing problems, opening up new avenues of research in uncharted waters.

Using Galaxy Tab Elsevier Maximum PC is the magazine that every computer fanatic, PC gamer or content creator must read. Learn to use your Galaxy Tab with ease, no jargon. Clear, concise, short and to the point... Using Galaxy Tab is the essential guide to getting around Samsung's flagship and best selling Android-based tablet and e-book reader. This book explores setting up your new Tab and registering; navigating around the interface and what all the buttons, lists and icons are for; configuring your WiFi; setting up, sending and receiving emails using Yahoo, Gmail, Hotmail and your Exchange account; and browsing the web. This book also looks at the relationship of your device and cloud storage; buying and downloading games and apps from Google Play as well as other Android app stores; transferring your own documents to your Tab. Furthermore, this book shows you how to watch videos, YouTube on your TV, and movies on your TV from Tab. Techniques are illustrated step-by-step, together with concise, easy to follow text from an established Google Android devices reviewer and expert. Whether you have just bought your first Tab or a keen user, this book will provide you with a firm grasp of the underpinning foundations and equip you with the skills needed to use your Tab.

The four-volume set LNCS 8513-8516 constitutes the refereed proceedings of the 8th International Conference on Universal Access in Human-Computer Interaction, UAHCI 2014, held as part of the 16th International Conference on Human-Computer Interaction, HCI 2014, held in Heraklion, Crete, Greece in June 2014, jointly with 14 other thematically similar conferences. The total of 1476 papers and 220 posters presented at the HCI 2014 conferences was carefully reviewed and selected from 4766 submissions. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. The papers thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The total of 251 contributions included in the UAHCI proceedings were carefully reviewed and selected for inclusion in this four-volume set. The 65 papers included in this volume are organized in the following topical sections: access to mobile interaction; access to text, documents and media; access to education and learning; access to games and ludic engagement and access to culture.
