“WANTED. YOUNG, SKINNY, WIRY FELLOWS. NOT OVER 18. MUST BE EXPERT RIDERS. WILLING TO RISK DEATH DAILY. ORPHANS PREFERRED.”
—California newspaper help-wanted ad, 1860
The Pony Express is one of the most celebrated

and enduring chapters in the history of the United States, a story of the all-American traits of bravery, bravado, and entrepreneurial risk that are part of the very fabric of the Old West. No image of the American West in the mid-1800s is more familiar, more beloved, and more powerful than that of the lone rider galloping the mail across hostile Indian territory. No image is more revered. And none is less understood. *Orphans Preferred* is both a revisionist history of this magnificent and ill-fated adventure and an entertaining look at the often larger-than-life individuals who created and perpetuated the myth of "the Pony," as it is known along the Pony Express trail that runs from St. Joseph, Missouri, to Sacramento, California. The Pony Express is a story that exists in the annals of Americana where fact and fable collide, a story as heroic as the

journey of Lewis and Clark, as complex and revealing as the legacy of Custer's Last Stand, and as muddled and freighted with yarns as Paul Revere's midnight ride. *Orphans Preferred* is a fresh and exuberant reexamination of this great American story.

Rose is a princess, a Cinder, and half-human. She is the last one born of her kind, and on her twenty-first birthday, she must enter the woods and travel to find her Prince, as her sisters did before her. ". . . And we will all dance at the Grand Ball," her sisters would

always say. But the Human servants are keeping a secret that could prevent the Cinders from reaching their Happily Ever After....Hidden in Rose's dreams and vision are the answers of the past between Cinders and Humans, and she is quickly running out of time trying to solve their hidden messages. She knows the answer lies in her first clue--identifying an animal she has never seen before--that persistent vision of a furry white animal, holding a gold metal object and exclaiming, "Oh dear! Oh dear! I shall be too late!"

BECOMING DISCIPLES THROUGH
BIBLE STUDY. The study
concentrates on the Writings
(Old Testament books not in
the Torah or the Prophets),
the Gospel of John, and
Revelation. Emphasis on the

32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times. *The 9th Symbol* Henry Holt and Company

Realizing that everyone's use of language is as distinctive as his or her DNA, Foster developed a revolutionary methodology for identifying the writer behind almost any anonymous document. Now, in this enthralling book, he explains his techniques and

invites readers to sit by his side as he searches a mysterious text for the clues that whisper the author's name. Foster's unique skills first came to light when a front-page New York Times article announced his discovery that a previously unattributed poem was written by Shakespeare. A few weeks later, Foster solved the mystery that had obsessed America for months when he identified Joe Klein as the author of Primary Colors. Foster also took on a case involving the elusive Thomas Pynchon. And his contributions to the Unabomber and JonBenet Ramsey cases have led the FBI and several police forces to hire him to train their organizations. Introducing a fascinating new field of forensics,

This book explores the significance of silence within and beyond pedagogical contexts. Silence is a complex and multidimensional phenomenon for everyday life: since schools mirror society, it is also significant in education. While silence can be experienced in a multitude of different ways, the author reflects on whether silence itself can bear a message: is there an aspect of dialogue in silence, or is it a language all of its own? This

book examines a variety of silences essential for education, examining such topics as silence and aspects of power, silent students, and the relationship between listening and silence. Drawing on a range of empirical data, the author elucidates the significance of silence in pedagogical contexts.

The meaning that people attribute to things necessarily derives from human transactions and motivations, particularly

from how those things are used and circulated. The contributors to this volume examine how things are sold and traded in a variety of social and cultural settings, both present and past.

Focusing on culturally defined aspects of exchange and socially regulated processes of circulation, the essays illuminate the ways in which people find value in things and things give value to social relations. By looking at things as if they lead social lives, the authors provide a new way to

understand how value is externalized and sought after. They discuss a wide range of goods - from oriental carpets to human relics - to reveal both that the underlying logic of everyday economic life is not so far removed from that which explains the circulation of exotica, and that the distinction between contemporary economics and simpler, more distant ones is less obvious than has been thought. As the editor argues in his introduction, beneath the seeming infinitude of human wants, and the apparent

multiplicity of material forms, there in fact lie complex, but specific, social and political mechanisms that regulate taste, trade, and desire. Containing contributions from American and British social anthropologists and historians, the volume bridges the disciplines of social history, cultural anthropology, and economics, and marks a major step in our understanding of the cultural basis of economic life and the sociology of culture. It will appeal to anthropologists,

social historians, economists, et produits mobiles.
